

**KVSO, Ardmore, OK (Fac. Id. 11182)**  
**Renewal Application**  
**Public File**

Applicant has responded “no” to this certification in an abundance of caution because of three political file uploads in the station public file (Federal - Horn and Lucas; State - Christian). The station never received a request for political ad time from these candidates. Instead, the political ads ran in a syndicated program without any prior notice to the station. A station employee happened to hear the political ads during the program, immediately reached out to the syndicator to obtain the documents, and for purposes of full disclosure, uploaded them to the public file on the day they were received.

Given its overall compliance with public file upload timeliness during the license term, KVSO respectfully requests that the instances described above be considered *de minimis* in nature.
