Public File Certification

The station's online public inspection file is complete, with all required items, to the licensee's knowledge. However, over the course of the preceding license term, the station failed to upload certain required files (*e.g.*, the station's donor lists for 2018, 2019, and 2020) in a timely manner. Since discovering these issues, the problems have been corrected.

Licensee believes that as of the filing of the instant application its online public file is now complete. In making this certification, the licensee has reviewed its public inspection file and has inquired of current employees who are knowledgeable of the contents and maintenance of the licensee's public inspection file. As used in this certification, the phrase "to licensee's knowledge" means licensee's actual knowledge, during the period that the licensee has owned the station, without further investigation other than as described in this exhibit.
