

KVSV BELOIT KANSAS PUBLIC FILE AND POLITICAL FILE EXHIBIT/ EXPLANATION

Dear Sirs; Our public file is not perfect but the intent has and always will be....Heres what you will see...Since we've had to keep files online 2 quarters of issues and programs lists were tardy...2018 4th quarter and the 2020 3rd quarter.

My only excuse is KVSV AM-FM in Beloit,Kansas are small market privately owned stations

in North Central Kansas ...we have a small staff...as GM I wear a lot of hats...News Director Sports Director Play By Play guy..morning man..etc...sometimes it catches up to me....I will try my best not be late in any entries in the future.

You will also find our political files were inserted after the elections....I simply did not know that

the orders were supposed to be in our public file on line the day after an order was made. And I know this is no excuse...but in talking to a lot of my colleagues in Kansas and Nebraska they didnt either.

Once I found out when watching License renewal seminar from the Kansas Association of Broadcasters

I made sure all of the political files were in shortly thereafter.

It was easy to insert them...I along with a lot of other broadcasters just didnt know when exactly they had to be in. I assumed wrong that after the election was over would be ok.

KVSV AM-FM Beloit,Kansas has never had any marks against us with the FCC I have been GM since 2000 and we will cointinue to strive for that...John Swanson GM KVSV AM-FMBeloit Kansas.
