

“XPLORATION WEIRD BUT TRUE”

SEASON V - 2020/2021

FCC FRIENDLY EPISODE WRITE-UPS

THIRD QUARTER

Week of August 31, 2020 through week of September 21, 2020

Week of August 31, 2020 (Episode #101)

Trees come in all shapes and sizes. To unravel just how weird trees can be, Charlie and Kirby are off to climb giant sequoias that can grow to be over 250 feet tall!

Week of September 7, 2020 (Episode #102)

Charlie and Kirby have been left in charge of Patrick’s Coral Reef aquarium, but they have no idea how to take care of it. So they’re off to meet a National Geographic explorer who can help!

Week of September 14, 2020 (Episode #103)

Plants might seem boring, but they can be super weird! Charlie and Kirby explore carnivore’s plants that eat bugs and encounter some giant sea kelp that can grow up to two feet per day!

Week of September 21, 2020 (Episode #104)

Kirby’s garden can go everything... except fruits! She’s missing pollinators, so Charlie launches them on a mission to learn all about bees.
