Online Public Inspection File

Mississippi Authority for Educational Television, licensee of noncommercial educational television station WMAE-TV, Booneville, Mississippi, reports the following with regard to the timely placement of certain items into the station's public inspection file. The WMAE-TV online public inspection file is now complete with all required items, but the 2020 annual EEO public file report, and issues and programs lists from 2019 (3rd/4th quarter) and 2020 (1st/2nd/3rd quarter), were uploaded late to the file during the current license term. Each of these items was prepared and added to the online public file of a co-owned sister station when due, but was added late to this station's file. Importantly, the station has now moved each of these items into this station's online public inspection file as well. The station regrets the delay in the appearance of these reports in the online public inspection file due to an oversight. However, the station has already ensured that its online public file is now complete with all required materials.
