

K18FR-D Request for Technical STA

As a result of failed power amplifiers, K18FR-D, Newport, Etc., OR (Facility ID No. 50584) has been forced to operate at approximately 50% reduced power using temporary spare equipment. Specifically, K18FR-D is currently operating at an ERP of 2.5 kW (with TPO of 140 watts and antenna system gain of 12.55 dB). Oregon Public Broadcasting (OPB), the licensee of K18FR-D, hereby applies for Special Temporary Authority to continue this reduced power operations.

OPB is working to repair the failed power amplifiers for K18FR-D and will restore the station to full power as soon as possible.
