

Character Issues

There are no broadcast applications where character issues were left unresolved or were resolved adversely against Chesapeake Television Licensee, LLC (“Applicant”), licensee of WBFF(TV), Baltimore, MD (Facility ID 10758) (the “Station”), or any party to the application. We note, however, that with respect to Applicant’s ultimate parent company, Sinclair Broadcast Group, Inc., two petitions were filed seeking reconsideration of the Commission’s Order and Consent Decree, 35 FCC Rcd 5877 (2020), and that one of those petitioners has also filed a petition to deny the Station’s license renewal application. The petitions and license renewal application remain pending.
