2. The applicant certifies that prior to commencing Program Test Operations, the applicant has on file an Application for an FM Translator License pursuant to 47 C.F.R. Section 74.14.

3. The applicant certifies that before Program Tests commence, sufficient measurements have been made establishing that the operation authorized in this Construction Permit is in compliance with the spurious emissions requirements of 47 C.F.R. Section(s) 73.317(b) through 73.317(d). All measurements have been made with all stations simultaneously utilizing the shared antenna. These measurements have been submitted to the Commission along with the FCC Schedule 350-FM application for license. (see attached Spurious Emissions Study)

***4. A waiver of Special Condition/Restriction Number Four (4) is respectfully requested herein. The applicant acknowledges this construction permit authorizes the mounting of an antenna on the nondirectional tower of WKFN(AM) - Clarksville, TN (Fac ID: 65202). However, the facility herein has quadplexed into the existing W260DH/W264CK/W281BT Nicom Model BKG/77-3L(NDA) antenna and feedline with no physical change to the AM tower. Therefore, no antenna resistance measurements, as defined in Section 73.45(c)(1) of the Commission's Rules, is merited as the provisions of Section 1.30003 do not apply.***
