

EEO Narrative

The station continuously strives to achieve broad and inclusive outreach and has established EEO policies and procedures which focus on the wide dissemination of information about the station and its job opportunities to the immediate community and a variety of recruitment sources.

Among the sources targeted for recruitment are technical schools, colleges and universities, minority groups and organizations, community organizations, area unemployment facilities, and other groups or organizations that assist in job placement. The station also participates in local job fairs. The station's attendance at these events has enabled it to continue its successful recruiting efforts. In addition to its traditional recruiting efforts, the station invites local college students pursuing careers in media, broadcasting and meteorology to visit the studio and shadow station personnel. The station also undertakes internal EEO training for all management-level personnel.

The station understands the importance of its recruiting obligations, and as such, reviews its policies and procedures on an annual basis in order to make adjustments to its recruiting sources and its community activities.
