**Renewal Application**  
**Online Public File**

KWEL's Q1 and Q2 2018 issues and programs lists were uploaded 7 and 13 days late respectively. In addition, during preparation for license renewal, KWEL discovered that the Q2-Q4 2013 issues and programs lists had inadvertently not been uploaded to the online public file during the transition from paper to online files required to be completed by March 1, 2018. KWEL uploaded those as soon as the oversight was discovered. When originally completed, the Q2-Q4 issues and programs lists were timely placed in the paper public file.

Given the station's overall compliance during the license term, KWEL respectfully requests that the late uploads described above be considered *de minimis* in nature.
