LMS File Nos. 0000139065,
0000139062 and 0000139036

Dear Permittee,

This concerns the above-referenced applications for extension of time to complete construction of digital low power television stations.

The construction permits are for “out-of-core” channels that are no longer part of the TV band (channels 38-51). Commission records indicate you have not yet filed a displacement application to choose an “in-core” channel in the TV band (channels 2-36). Therefore, we are unable to process the extensions until such in-core channel displacement applications are filed. You are directed to submit an in-core displacement application for each construction permit as soon as possible and in no event later than **July 13, 2021**. Failure to file by the deadline will result in dismissal of your extensions and cancellation of your construction permits.

For questions or additional information on this matter, please contact Shaun Maher, Video Division, Media Bureau at 202-418-2324 or Shaun.Maher@fcc.gov or Mohan Simon, Video Division, Media Bureau at 202-418-7010 or Mohan.Simon@fcc.gov.

Sincerely,
/s/

Barbara A. Kreisman
Chief, Video Division Media Bureau
