Online Public Inspection File

Kentucky Authority for Educational Television, licensee of noncommercial educational television station WKZT-TV, Elizabethtown, Kentucky, reports the following with regard to the timely placement of certain items into the station's public inspection file. The WKZT-TV online public inspection file is now complete with all required items, but three (3) quarterly issues and programs lists (2013 3rd quarter, and 2015 1st/2nd quarters) were uploaded late to the file during the current license term. These items were prepared when due, but apparently the online public file uploads were not successfully completed as of the applicable deadlines. Importantly, however, KET has now moved each of these items into this station's online public inspection file as required. KET regrets the delay in the appearance of these reports in the online public inspection file, but believes that the station's online public file is now complete and includes all required materials.
