Cox Television Tulsa, LLC, licensee of KMYT-TV (“Cox Tulsa”), Tulsa, Oklahoma, hereby requests Special Temporary Authority (“STA”) for Cox Tulsa to operate from an alternate site.

KMYT-TV experienced transmitter failure of the RF combining system in mid-March. After assessing the damage, KMYT-TV transitioned to operate from a site (the “Interim Site”) previously authorized under STAs for use by KMYT-TV during the repack transition (FCC File No. 0000058947, the “Repack Interim Site STA” and FCC File No. 0000088183, the “Engineering STA”). Cox Tulsa is actively working with the manufacturer to order any necessary replacement parts and schedule repairs.

Accordingly, Cox Tulsa hereby requests STA to operate from the Interim Site with the same facilities as previously authorized under the Repack Interim Site STA/Engineering STA until such time as repairs are completed at its main site.
