

**Tomlinson-Leis Communications, L.P.
KNET (AM), Palestine, TX (Facility ID No. 72837)**

Public File Exhibit

The Online Public File for KNET (AM) is currently up to date, but Quarterly Reports from the last two Quarters of 2018 were not timely uploaded, along with Reports from 2019 and 2020. This was due to significant staff reductions at the station during this time period, compounded by the impact of COVID-19 on station operations in 2020.

Licensee has taken steps to prevent future delays by providing additional training to the staff now charged with uploading documents to the Online Public File. Additionally, Licensee's General Manager is now meeting regularly with its Office Manager to oversee the process of ensuring all required documents are timely placed in the Public File.
