Operations Certification

W36FA-D was acquired by the current licensee on September 19, 2019. Prior to the parties closing on the assignment of license, the former licensee ceased operations of the station on Channel 42 on October 3, 2018, due to the commencement of operations in the 600 MHz spectrum by T-Mobile.

The previous licensee recommenced operations on Channel 36, pursuant to its displacement application, on February 5, 2019. Accordingly, the station was silent for just over four months.
