

## MAJOR MARKET BROADCASTING OF NORTH DAKOTA, INC.

2118 Walsh Avenue  
Suite 208  
Santa Clara, CA 95050

RE: W19DN-D, Macon, Georgia (FCC Facility 185672)  
W22DW-D, Lafayette, Indiana (FCC Facility 184194)  
K22OG-D, Fargo, North Dakota (FCC Facility 188581)

To whom it may concern:

Major Market Broadcasting of North Dakota, Inc., the proposed assignee of the unbuilt construction permits for the above-referenced low power television facilities from DTV America Corporation in the currently pending assignment application (*LMS 0000142807-09*). This is to confirm that following FCC approval of the assignment application, Major Market Broadcasting of North Dakota, Inc. intends to promptly construct the each of these facilities by the end of calendar year 2021 – subject only to weather limitations. We anticipate that, subject to unforeseen circumstances beyond our control, most of the construction should be completed by October 2021.

We anticipate that some of these facilities will utilize the new ATSC 3.0 standard.

We respectfully request a 180-day extension of the construction permits to allow Major Market Broadcasting of North Dakota, Inc. time to complete the steps necessary to construct and license the three stations above.

Respectfully submitted,

Ravi Kapur  
President
