

Notification of Resumption of Licensed Operations and  
Request for Withdrawal of Engineering STA  
Living Faith Ministries, Inc.  
WLFG, Grundy, VA (Fac. ID No. 37808)

**Notification of Resumption of Licensed Operations and  
Request for Withdrawal of Reduced Power STA**

As of April 20, 2021, WLFG's full licensed operations have been restored. Accordingly, the licensee respectfully requests withdrawal of the pending STA request in LMS File No. [0000126348](#). This filing is not styled as a resumption notification because the STA remains pending and, as such, LMS will not allow us to file a resumption notification.

As described in the STA request, WLFG had indications of power amplifier overloads in its main transmitter at the DTS-1 site due to a "possible" partial failure within the channel 14 mask-filter. On April 20, 2021, replacement of the channel 14 mask-filter was successful. Consequently, WLFG has resumed normal operations, making the STA request for reduced power moot at this time.
