

**MINOR MODIFICATION OF CONSTRUCTION PERMIT
K21MV-D, FI 183793, FCC FILE NUMBER 0000052018
FARMINGTON, NM
THE EDGE SPECTRUM, INC.**

The within application crafts a "mini" station of the referenced CP by reducing ERP from 0.1 kW to 0.05 kW in order to allow a timely build and licensing by the CP expiration date.

Transmitter location is on ASR 1057687; Antenna is CL-1469 rotated to 45° T.
C/R height increased to 7.0 m AGL. Digital mask filter is Stringent.

NIER is less than 5% of the OET65 allowable limit for this service and frequency.
Interference to existing applications and licenses is 0.0% or *de minimus*. Transmitter is type-accepted. Facility will be promptly constructed and licensed timely.
