

Engineering Statement

Request for Special Temporary Authority to be Silent

K33DP

Carlin, NV

FCC Facility ID # 8876

RF Channel 33

May 7, 2021

This Engineering Statement has been prepared on behalf of the Carlin TV District (CTVD), licensee of Low Power Analog TV Station K33DP at Carlin, NV. The statement was prepared in support of a request for Special Temporary Authority (STA) to be Silent.

The station has ceased its analog operations in accordance with the cessation of analog TV broadcasting deadline of July 2021.

The licensee is contemplating a transition of the station to digital operations from a new transmitter location and will file the appropriate construction permit application once it has determined the final facility parameters for its new operations.

Grant of this application would serve the Public Interest by allowing the licensee to complete its final facility transition planning and to resume operations providing TV Translator services to its communities once that transition is completed.
