Digital Low-Power Television Station WWHL-LD  
1.8 kW ERP DA / Channel 31  
Nashville, Tennessee

Digital Networks-Southeast, LLC

May 2021

## **APPLICATION FOR LICENSE**

The following engineering statement has been prepared for **Digital Networks-Southeast, LLC** ("Southeast"), licensee of digital low power television facility WWHL-LD at Huntsville, Alabama, and is in support of their application for license to cover modifications to that facility. This application is being filed to cover the construction permit assigned LMS File No. 0000134276. Additionally, this application also seeks to change the community of license from Huntsville, Alabama to Nashville, Tennessee.

Under the referenced construction permit, WWHL-LD is authorized to operate on television channel 31 with a maximum effective radiated power of 1.8 kW at a center of radiation of 271.1 meters above mean sea level, 30 meters above ground level, utilizing a composite directional antenna. This antenna is comprised of two Kathrein-Scala PR-TV antennas. One of these elements is oriented at 10 degrees true, while the other is oriented at 180 degrees true. Equal power division between the two elements is employed. Southeast has completed construction of the facility utilizing the authorized parameters. The installed equipment achieves the authorized effective radiated power.

The construction permit, as issued by the Commission, lists one special condition or restriction. This condition advises Southeast that the authorization is a Low Power Television authorization, and as such, is secondary. Southeast is cognizant of the interference requirements imposed on it by the authorization, and will comply, as necessary.

Southeast certifies that it will protect workers and other personnel from being exposed to levels of radiofrequency radiation in excess of the applicable safety standards, and will coordinate with all other users of the site. Coordination efforts will include, but are not necessarily limited to a reduction in transmitter power or cessation of operation.

The preceding statement has been prepared by me, or under my direction, and is true and accurate to the best of my belief and knowledge.
