

**Technical Statement**  
**Translator W249DA**  
Channel 249D – 97.7 MHz  
0.250 kW ERP – 609 m COR AMSL  
Crossville, Tennessee  
May 2021

In this instant application, Peg Broadcasting, LLC seeks to move Translator W249DA to Antenna Structure Registration Number 1045641. W249DA will share an antenna with Translator W242DH, who is filing a concurrent application. The 60 dBu contour of the proposed W249DA facility overlaps the 60 dBu contour of the licensed facility, making this a minor change application. A map showing this 60 dBu contour overlap is attached. The GLOBE 30 second terrain database was used for all maps, the allocation study and FM Over calculation.

**Minor Change Demonstration**  
**Translator W249DA**  
 Channel 249D - 97.7 MHz
