

K240FC
Minor Modification to Licensed Facility
WAIVER REQUEST 74.1204
MAY 2021

This engineering statement is prepared on behalf of Carlos Lopez. Lopez is requesting a waiver for section 74.1204 of the rules towards Fm station KHPT. The signal level arriving at the proposed site of Lopez is a 89.0 DBU (50,50) from KHPT. The translators interfering contour is 40 DBU (50,10) which together would be 129.0 DBU (50,10). See attached contour map. Using the undesired-to desired method for the purpose of determining lack of interference for an fm translator. The proposed interfering contour with respect to FM station KHPT is 129.0 DBU see attached distance to contour from FCC web site the interfering contour only extends 39 meters and does not touch the ground or any population to any building. Mr. Lopez is respectfully requesting a waiver.
