

## RFR Statement of Compliance

---

The proposed KUBT(FM) facility will be added into the master antenna/combiner system at the multiple-use Palikea Ridge transmitter site. Once the proposed KUBT(FM) facility is authorized and installed, an RFR measurement survey will be undertaken to determine the effect of the proposed facility on the RFR environment. Any changes necessary to the existing RFR safety plan will be made accordingly.

Further, the applicant is committed to reducing power and/or ceasing operation during times of service or maintenance of the transmission systems as necessary to avoid potentially harmful exposure to personnel. In light of the above, the proposed facility should be categorically excluded from RF environmental processing under section 1.1307(b) of the commission's rules.
