

KSLT (Application # 0000122489) and KTPT (Application # 0000122488) License Modification Narrative

The purpose of the proposed license modification is replacement of the existing Dielectric DCR-MB10 antenna which is no longer serviceable with an ERI SHPX-10C6-SP antenna. An RF exposure study and antenna specification paper have also been included.

Best regards,

Tracy Krsnak
