

Daytona State College
WDSC-TV, New Smyrna Beach, Florida (Facility ID 12171)
FCC Form 2100, Schedule 303-S
Public Inspection File

As of the date of this renewal of license application, all documents required to be uploaded to the station's public inspection file have been added thereto. While the licensee believes it substantially complied with the public inspection file rule during the license term, a small number of documents were uploaded after the applicable deadlines due to inadvertent administrative error.

Specifically, certain portions of the Station's issues and programs reports were uploaded after the applicable deadline during the earlier part of the license term. Each quarter, WDSC uploads its quarterly issues and programs lists in 1-4 separate files. Between the Station's last license renewal in 2013 and the third quarter of 2016, documents for ten quarters were uploaded between 4 days to one month after the applicable deadline. Since the fourth quarter of 2016, all documents were uploaded by the applicable deadlines. Certain other quarterly issues and programs lists were originally uploaded in a timely manner, but were uploaded in the folder for the wrong quarter and were subsequently moved to the correct portion of the file and, as a result, may now show an incorrect upload date, although they were initially filed on time. In addition, Licensee notes that its annual EEO Public File Reports were all available in its online public file by the applicable deadlines but, due to a misunderstanding had been filed as exhibits to a Form 396, which the Station had filed on an annual basis. Licensee has now made copies of those reports available in the "Additional Documents" folder of the EEO portion of its online public file.
