Online Public Inspection File

Regents of the University of California, licensee of noncommercial educational radio station KDVS, Davis, California, reports the following with regard to the timely placement of certain items into the station's public inspection file. The KDVS online public inspection file is complete with all required items, but certain quarterly issues and programs lists (2019 Q1-2-3 and 2018 Q1-3-4) were uploaded late during the current license term. The station regrets the tardy upload of these items, but as soon as the station's General Manager became aware of the missing uploads (which originally came due under a predecessor), they took steps to correct the online public file as needed. As a result, KDVS believes that station's online public file is now complete and includes all required items.
