Engineering Statement

**New Ch 34 Lubbock, TX
BNPDTL-20090825AYA**

The within application is filed to clear an MX situation with BNPDTL-20090825ARG. The amendment clears interference to that application caused by the within application and by it, the within applicant agrees to accept incoming interference from that application. Other details of the amendment are: change of ERP to 0.1 kW, TPO to 0.03 kw, height above ground level to 10.0 meters. Antenna is changed to SCA CL-1469 rotated to 10°.

NIER from the within application is less than 5% of the limit for its service, Longley-Rice study shows compliance with all pertinent portions of §74.793. Antenna remains on ASR 1223898.

Respectfully submitted,

B. W. St. Clair
