

Engineering Statement

Amendment Ch 14 Boise, ID BNPDTL-20090825BYC

The within application amendment is filed to clear MX situations with BNPDTL-20090825BBL, BNPDTL-20090825AOO and BNPDTL-20090825BEV. As a part of this filing, the applicant agrees to accept over 2% interference from these file numbers only. This amendment revises the following: ERP reduced from 15 kW to 0.2 kW. Antenna is changed from MCI 955314 to SCA PR-450CU aimed at 180° T. Full service mask is used for the amended application.

NIER is less than 5% of the permitted value for this service. OET69 study shows compliance with pertinent portions of §74.793.
