

## Public File Explanation for WSEC, WMEC & WQEC

The licensee acquired WSEC, WMEC and WQEC on 10/31/2018 following FCC approval of FCC File No. BALEDT-20180717AAY, and is responsible for public file documents after the closing date.

Upload of the 4th quarter 2018 issues programs list was delayed because the government shutdown prevented timely access to the FCC's online systems.

Upload of the 1<sup>st</sup> quarter 2020 issues programs list was delayed because of the pandemic. The FCC allowed the 1<sup>st</sup> quarter 2020 report to be uploaded by 7/10/2020. The Media Bureau extended the time for broadcasters to upload their quarterly lists in *Public Notice*, DA 20-353, released March 27, 2020.

The 2019 Annual EEO Public File Report was initially uploaded on time, but counsel recommended revisions while reviewing the 2020 report. The revised report was substituted for the timely uploaded initial report.

Subject to the above explanations, all items required to be in the public files were timely uploaded to the public files.
