

Public Television 19, Inc. (dba Kansas City PBS),

Station KCPT, Kansas City, Missouri (FIN 53843)

ATSC 3.0 Deployment Plan

Public Television 19, Inc., dba Kansas City PBS, the licensee of noncommercial educational PBS-member television Station KCPT, Kansas City, Missouri, proposes to commence broadcasting an ATSC 3.0 simulcast of the KCPT PBS-affiliated primary channel. A data stream from KCPT may be added at a later date.

The planned launch date is August 24, 2021.

This ATSC 3.0 simulcast would be a guest stream hosted by Station KMCI-TV, Lawrence, Kansas (Facility ID 42636), licensed to Scripps Broadcast Holdings LLC. ("Scripps"). KMCI-TV will act as "host" and will transmit in the ATSC 3.0 broadcast format.

KCPT will continue to broadcast its primary channel and its multicast channels in ATSC 1.0 format in accordance with KCPT's currently licensed parameters.

Kansas City PBS and Scripps have entered into a hosting agreement, in accordance with Section 73.3801 of the Commission's rules, to govern this Next Gen hosting arrangement. At this time, Kansas City PBS does not intend to enter into other Next Gen hosting arrangements.
