

Certification Regarding Children's Programming Commercial Limitations

As a standard practice, all programs designed for children 12 years of age and younger that were broadcast on the station were formatted to allow no more than 10.5 minutes of commercial time per hour on weekends and 12 minutes of commercial matter per hours on weekdays. There were no occasions during the preceding license term on which these limitations were exceeded.

Applicant notes that it omitted certain programming designed for children 12 years of age and younger in its Commercial Limits Certifications for the Fourth Quarter of 2013, and incorrectly identified certain programs designed for children between 13-16 years of age as designed for children 12 years of age and younger in its Commercial Limits Certifications for the Fourth Quarter of 2013, the First, Second, Third and Fourth Quarter 2014, Third and Fourth Quarter of 2015, and First, Second, and Third Quarter of 2016. It has since uploaded an amended certification for such periods to the station's Public Inspection File to correct such certifications.
