

**Audio Certifications**

The station did not timely upload all documents to the online public inspection file during the license term. Specifically, the licensee timely uploaded the existing public inspection file documents by the March 2018 deadline to do so. However, two Quarterly Issues Programs Lists were misnamed and contained duplicates of other quarters' Lists. Accordingly, the Lists for the Third Quarter of 2015 and Third Quarter of 2017 were re-uploaded in connection with the filing of the instant renewal application. Thereafter, the Lists for the Third Quarter of 2019, the Fourth Quarter of 2020, and the First Quarter of 2021 were filed slightly after their due dates.

The station's 2017 and 2019 biennial ownership reports were filed by the due date or following a request for extension of time.
