K14HT-D
Walla Walla, etc., WA
Fac. ID: 2511

Dear Licensee:

This refers to your request for program test authority pursuant to the condition contained in the above referenced construction permit. The Commission required that the permittee submit documentation that objectionable interference will not be caused to existing land mobile radio facilities in the 464 to 470 MHz band.

Upon review and evaluation of the information submitted to satisfy the condition, we conclude that no objectionable interference is likely to result from operation of the constructed K14HT-D facility. Therefore, in accordance to Section 73.1620(a) of the Commission's Rules, authority to commence program tests **IS GRANTED**.

Sincerely,

Mark J. Colombo
