Hi Art,

I hope you're doing well. This is Todd Burkhart with Sterling Communications. James said you found an issue with Application 0000149840 in the Ground Elevation (AMSL). I have looked at the application and I see my problem. I have the RC-AMSL listed as the AMSL and I apologize for that.

The Ground Elevation (AMSL) should be 1930 meters not 1977.

The Height of Radiation Center Above Mean Sea Level should be 1977 meters.

If I need to amend the application, I would be happy to do so. Please let me know.

Sorry for any inconvenience.
