

Marquee Broadcasting, Inc. is continuing to search for a tower site that would give WVMY-LD better coverage of the Parkersburg market. The current location is no longer viable for long term operation, necessitating a move to another location. This move will require engineering studies and the approval of the FCC. Until such time as Marquee can complete the studies and receive the approval of the FCC for the move, Marquee hereby requests the FCC's approval to remain silent.
