This Agreement contains all of the provisions required under Section 73.6028 of the FCC Rules.

Agreement

NOW, THEREFORE, taking the foregoing recitals into account, and in consideration of the mutual covenants and agreements contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties, intending to be legally bound, hereby agree as follows:

ARTICLE 1: SHARED CHANNEL AND FACILITIES

1.1. **Term.** The term of this Agreement (the “**Term**”) will begin on July 20, 2021, and shall continue until three (3) years from the Commencement Date (as defined below), unless earlier terminated in accordance with the terms of this Agreement.

1.2. **Shared Channel and Facilities.** The parties shall cooperate to transition Sharee’s Station to the Shared Channel and the Shared Transmission Facilities on a mutually agreeable schedule determined by the parties, in good faith; *provided* that the parties shall commence shared operations on the earliest date following FCC public notice of the grant of the channel sharing construction permit that is consistent with the notices required to be provided by Sharee regarding commencement of operations on the Shared Channel, if any. The “**Commencement Date**” shall be the date upon which operations by Sharer and Sharee on the Shared Channel shall have commenced. Sharee shall be solely responsible for: (i) the costs reasonably necessary to modify the Shared Transmission Facilities for shared use under this Agreement, as set forth in Schedule 1.2 hereto, which modifications, unless otherwise agreed in writing between Sharer and Sharee, shall become part of the Shared Transmission Facilities; and (ii) all costs associated with the move of Sharee’s Station to the Shared Transmission Facilities. Sharee’s use of the Shared Channel and the Shared Transmission Facilities shall start on the Commencement Date and continue until the end of the Term (the “**Shared Use Term**”). The parties shall share the Shared Channel and the Shared Transmission Facilities during the Shared Use Term as provided by Article 2, Article 3 and the other terms of this Agreement. If, and to the extent that, any consents of the landlord/licensor to the Transmitter Facilities Agreement are required to commence channel sharing on the Shared Channel, then prior to the Commencement Date, such required consents, if any, shall have been obtained by Sharer.

1.3. **FCC Filings.**

(a) **Construction Permit Application.** Within five (5) business days of the date of this Agreement, Sharee shall file an application on FCC Form 2100, Schedule E to modify the facilities of Sharee’s Station (the “**Minor Mod Application**”) in order to implement this Agreement with a request for waiver of the FCC’s 30-mile relocation restriction for Class A TV stations set forth in Section 74.787(b)(1) of the FCC’s Rules (and, if required, shall include with such application a copy of this Agreement with appropriate redactions of confidential information). Sharee will construct facilities pursuant to the construction permit (the “**CP**”) issued by the FCC upon grant of the Minor Mod Application. Sharee shall transmit any required notices to viewers and MVPDs. Sharer shall furnish Sharee with such information and assistance as Sharee may reasonably request in connection with Sharee’s preparation of the Minor Mod Application.

(b) **License Applications.** Promptly upon the commencement of Shared Channel operations, Sharer and Sharee each shall file an application on FCC Form 2100, Schedule F to modify its FCC license to reflect operations on the Shared Channel.

(c) **Costs.** Sharee shall be solely responsible for all out-of-pocket expenses relating to the applications filed in accordance with subsections 1.3(a) and (b).

1.4. **Compensation.** In consideration for the right to use the Shared Channel as set forth in this Agreement, Sharee shall pay Sharer the amounts set forth on Schedule 1.4 (the “Sharing Payment”).

ARTICLE 2: CAPACITY AND FCC LICENSES.

The parties hereby agree that during the Shared Use Term:

2.1. **Allocation of Channel Capacity.** Pursuant to the Channel Sharing Rules, during the Shared Use Term the parties shall share the Shared Channel as set forth on *Schedule 2.1*, which may be modified from time to time by mutual written agreement of the parties (the “**Baseline Spectrum Allocation**”). Each channel sharing licensee shall retain sufficient spectrum usage rights to allow it to provide at least one Standard Definition (SD) over-the-air program stream at no direct charge to viewers at all times. The parties shall implement a mutually beneficial weighting system and use the software optimization technology of statistical multiplexing (“**Stat Mux**”) or a successor technology mutually agreed upon by the parties. Each party shall designate one program stream with the highest priority within its allocated capacity, with each such program stream afforded an equivalent level of high priority. All other program streams shall have a lesser priority, and the parties shall, consistent with good engineering practices, cooperate to devise a system that produces the best results for each party with minimum picture degradation, subject to the constraints imposed by the agreed allocation of capacity among the parties hereto.

2.2. **Encoding.** In order to take advantage of a Stat Mux pool, the parties shall implement a single common encoding pool. Each party shall have the right to monitor and audit the Shared Channel’s encoding system to ensure compliance with Section 2.1. Each party shall make all records of such encoding available to the other upon written request during normal business hours.

2.3. **Changes to Allocation.** In the event of a New Modulation Deployment or ATSC 3.0 Upgrade pursuant to the terms and subject to the conditions of Section 3.5, the Baseline Spectrum Allocation shall remain unchanged, with the intended result that any additional capacity on the Shared Channel created by such New Modulation Deployment or ATSC 3.0 Upgrade would be allocated to Sharer. For the avoidance of doubt, nothing in this Section 2.3 shall affect, or otherwise be deemed to, modify, enlarge, or increase the absolute number of Mb/s allocated to Sharee in accordance with the allocation of spectrum as of the date hereof.

2.4. **Transmission.** During the Shared Use Term, Sharer shall transmit content provided by Sharee using the Shared Transmission Facilities. Except as provided herein, Sharer shall not alter the supplied content; provided, however, that it may: (i) encode, compress or

modulate the content as required to multiplex together the parties' content streams using the parameters agreed to in this Agreement, and (ii) combine the EIT and other information into a common PSIP format for transmission as agreed to in this Agreement.

2.5. **Capacity Use.** Each party shall have the right to use its allocated capacity on the Shared Channel in any way it sees fit in accordance with this Agreement (subject to compliance with the Channel Sharing Rules, and with all Communications Laws (as defined below) and other applicable laws). Sharer shall have the right, exercisable in its sole discretion in accordance with the Communications Laws, to sublease, transfer or otherwise dispose of any portion of the spectrum allocated for its use under this Agreement and its rights under this Agreement, which right shall include the right to enter into a multicast affiliation agreement, local marketing agreement, time brokerage agreement, or similar third-party arrangement with respect to Sharer's portion of the Shared Channel (a "**Sub-Sharing Arrangement**"). Sharee shall not enter into any Sub-Sharing Arrangements within its allocated capacity without the prior consent of Sharer.

2.6. **FCC Licenses.**

(a) **Authorizations.** Each party shall maintain all main station FCC licenses, approvals and authorizations necessary for its operations in full force and effect during the Shared Use Term. Neither party shall make any filing with the FCC to modify the Shared Channel without the prior written consent of the other party, which consent shall not be unreasonably withheld or delayed. During the Shared Use Term, each party will promptly notify the other of any material communications to or from the FCC that relate either to the Shared Channel or either party's station that may require coordination to minimize any disruptions to the operations of either party's station.

(b) **Compliance with Law.** Each party shall comply with this Agreement, the Channel Sharing Rules, the Communications Act of 1934, as amended, and the rules and regulations of the FCC (the "**Communications Laws**"), and all other applicable laws with respect to its ownership and operation of its own station and its use of the Shared Channel. Each party shall be solely responsible for all content it transmits on the Shared Channel. The obligations of the parties under this Agreement are subject to the Communications Laws and all other applicable laws. In addition, during the Shared Use Term, the parties shall materially comply with all laws and leases, licenses or similar agreements applicable to the Shared Transmission Facilities and the Transmitter Site.

(c) **Control.** Consistent with FCC rules, each party shall control, supervise and direct the day-to-day operation of its own television station (including its employees, programming and finances), and nothing in this Agreement affects any such respective responsibilities. Neither party shall hold itself out as the licensee of the other party's television station using the Shared Channel, and nothing in this Agreement shall give either party a present ownership interest in the other party's station. Neither party shall use the call letters of the other's television station in any medium, except in correspondence with the FCC related to the performance of this Agreement.

(d) **FCC Fees.** Except as set forth in Section 1.3(c), each party shall be responsible for timely payment of all fees owed by it to the FCC with respect to its television station using the Shared Channel, including without limitation regulatory fees and application fees.

(e) **Cooperation.** During the Shared Use Term, each party shall cooperate with one another in good faith as to any reasonable requests made by the other with respect to operation of the Shared Channel or the Shared Transmission Facilities that do not deprive it of benefits under this Agreement or require it to incur obligations or liabilities not contemplated by this Agreement. During the Shared Use Term, neither party shall take any action that interferes with or is reasonably likely to interfere with the other's use of capacity on the Shared Channel or the Shared Transmission Facilities as contemplated by this Agreement.

(f) **Channel Sharing Rules.** The parties acknowledge that after the date of this Agreement, the FCC may adopt additional or modified rules and regulations with respect to the Channel Sharing Rules. From time to time, promptly following the adoption of any such additional rules, the parties shall reasonably cooperate and may (but are not required to, except as necessary to comply with applicable law) amend, modify or restate this Agreement to take into account such changes in FCC rules and regulations.

ARTICLE 3: SHARED CHANNEL OPERATIONS

The parties hereby agree that during the Shared Use Term:

3.1. **Shared Transmission Facilities.** The parties shall share the Shared Transmission Facilities on the terms herein and consistent with the Channel Sharing Rules for the operation of their respective stations.

(a) **Operations.** Sharer shall provide Sharee with access to the Shared Transmission Facilities twenty-four (24) hours per day, seven (7) days per week, subject to any limitations in the Transmission Facilities Agreement. No party shall act contrary to the terms of the Transmission Facilities Agreement, permit to exist any lien, claim or encumbrance on the Shared Transmission Facilities or make material alterations to the Shared Transmission Facilities, or interfere with the business and operation of the other's television station or the other's use of such facilities. Each party may use the Shared Transmission Facilities only for the operation of its television station in the ordinary course of business, including any purpose permitted under the terms of its station's FCC authorizations and the Communications Laws, and for no other purpose. Each party shall comply in all material respects with all federal, state and local laws applicable to its operations using the Shared Transmission Facilities. During the Shared Use Term, Sharer shall maintain customary insurance covering the full replacement cost of the Shared Transmission Facilities with a reputable insurance company and with Sharee as an additional insured. All proceeds of such insurance shall be applied to repair or replace the Shared Transmission Facilities.

(b) **Shared Transmission Facilities.**

(i) A description of the Transmitter Site and a list of material items of equipment included in the Shared Transmission Facilities as of the date of this Agreement is attached hereto as Schedule 3.1(b). During the Shared Use Term, Sharer shall maintain and repair the Shared Transmission Facilities in accordance with good engineering practices customary in the television industry and shall keep Sharee reasonably informed as to all material repairs to such facilities. The shared use under this Agreement does not constitute a conveyance of title. Title to all items comprising the Shared Transmission Facilities shall remain with Sharer. Sharee may use the Shared Transmission Facilities only in the operation of Sharee's Station and for no other purpose. Sharer shall determine, in its reasonable good faith discretion, any ordinary course maintenance and repairs, non-ordinary course capital expenditures, upgrades, or replacements necessary or desirable with respect to the Shared Transmission Facilities. If at any time the Shared Channel is off the air or operating at a reduced power level, Sharer shall return the Shared Channel to the air and restore power as promptly as practicable. Sharee shall not move, repair, upgrade, modify, damage or interfere with the Shared Transmission Facilities. Each of Sharer and Sharee shall comply with the Transmission Facilities Agreement and shall not undertake any act or omission that would be reasonably likely to constitute a breach or default by Sharer thereunder, pursuant to the terms and subject to the conditions of the Transmission Facilities Agreement, as reflected in the copy thereof provided to Sharee.

(c) **Exclusive Equipment.** Subject to any restrictions imposed by the owner of the Transmitter Site, Sharee may install at the Transmitter Site, consistent with good engineering practices, equipment that is owned solely by it and that is reasonably acceptable to Sharer. Subject to the foregoing, Sharee shall provide a list of any such equipment to Sharer within thirty (30) days after the date of this Agreement. Each party shall maintain, repair and replace any equipment owned or leased solely by it located at the Transmitter Site in accordance with good engineering practices customary in the television industry. Title to all such equipment shall remain solely with the owner thereof. Each party shall comply with the terms of the Transmission Facilities Agreement with respect to such exclusively owned or leased equipment. Sharee shall not be entitled to use of any of Sharer's equipment that is not part of the Shared Transmission Facilities.

(d) **Contractors.** All contractors and subcontractors of each party who perform any service for it at the Transmitter Site or any other shared facilities shall hold licenses or governmental authorizations appropriate to and necessary for the work being performed. Any such contractor shall carry insurance issued by companies licensed in the state where the Transmitter Site or such other shared facility is located.

(e) **Hazardous Materials.** Each party shall: (i) materially comply with all environmental laws applicable to its operations from the Transmitter Site and any other shared facilities; (ii) not cause or permit the release of any hazardous materials on, to or from the Transmitter Site or any other shared facilities in violation of any applicable environmental laws; (iii) not take any action that would subject the Transmitter Site or any other shared facilities to any permit requirements for storage, treatment or disposal of hazardous materials; and (iv) not dispose of hazardous materials on the Transmitter Site or any other shared facilities except in compliance with applicable law.

3.2. **Interference.** Each party shall use commercially reasonable efforts to avoid interference with their respective operations from the Transmitter Site and to promptly resolve any interference that arises in connection with such operation. Neither party shall make changes or installations at the Transmitter Site or any other shared facilities, or enter into any third-party agreements, that could reasonably be expected to impair or interfere in any material respect with the other party's signals or broadcast operations or use of the Shared Channel. In the event interference to such signals or operations does occur, the party experiencing interference shall notify the other party in writing and the party so notified shall take all commercially reasonable steps to correct such interference in all material respects as promptly as practicable.

3.3. **Interruptions.** In the event that the Shared Transmission Facilities suffer an unexpected failure such that a party must reduce, limit or temporarily cease use of the Shared Transmission Facilities, the Shared Channel or its own equipment located at the Transmitter Site or any other shared facilities so that the other party may install, maintain, repair, remove or otherwise work upon its broadcast equipment or the Shared Transmission Facilities, the non-requesting party shall cooperate in a commercially reasonable manner. If necessary, the non-requesting party shall temporarily reduce, limit or cease use of the Shared Transmission Facilities, the Shared Channel or its own equipment located at the Transmitter Site or any other shared facility, provided that the requesting party takes all reasonable steps to minimize the amount of time the non-requesting party shall operate with reduced facilities and that the requesting party takes all reasonable steps to schedule such installation, maintenance, repairs, removal or work at a time that is most convenient to the non-requesting party.

3.4. **Force Majeure.** Neither party shall be liable to the other for any default or delay in the performance of its obligations under this Agreement to the extent that the default or delay is caused by an event outside of its reasonable control, including without limitation a fire, flood, earthquake, war, act of terrorism, labor dispute, public health crisis, government or court action, failure of facilities or act of God; provided that the failure to make a payment due under Section 1.4 shall not be excused by a force majeure.

3.5. **Expenses.**

(a) During the Shared Use Term, the reasonable and necessary out-of-pocket expenses of operating the Shared Transmission Facilities and any applicable Transmission Facilities Agreement shall be borne solely by Sharer, including without limitation utility, engineering, maintenance, property insurance and property tax expenses (if any) applicable to the Shared Transmission Facilities.

(b) Each party shall be solely responsible for all other expenses of operating its station, including without limitation the cost of delivering its programming from its studio to the Transmitter Site and the cost of its general liability insurance.

3.6. **Technical Changes; ATSC 3.0.**

(a) In the event that the FCC requires new standards of modulation or other technical or other modifications to the operations of the Shared Transmission Facilities or the Shared Channel ("**New Modulation Deployment**"), the parties will timely make any such

modifications in compliance with such requirements established by the FCC. Sharer shall bear the costs to implement such modulation or technical changes. Nothing in this Agreement is intended to prohibit Sharer from implementing new transmission systems or new technical standard for the Shared Channel.

(b) Sharer shall determine if and when to adopt or deploy the new modulation standard or transmission technology currently known within the television industry as ATSC 3.0 (“**ATSC 3.0 Upgrade**”) for the Shared Channel. Any budget and timeline for implementing the ATSC 3.0 Upgrade shall comply with applicable FCC rules and regulations and meet generally accepted industry standards. Sharer shall be responsible for all cost associated with the ATSC 3.0 Upgrade. For the avoidance of doubt, nothing in this Section 3.6 shall affect, or otherwise be deemed to modify, enlarge, or increase the absolute number of Mb/s allocated to Sharee in accordance with the Baseline Spectrum Allocation.

3.7. **Maintenance of Shared Transmission Facilities.** Sharer shall maintain and operate the Shared Transmission Facilities consistent with good engineering practices and shall determine, in its reasonable good faith and discretion, any ordinary maintenance and repairs, non-ordinary course capital expenditures, upgrades or replacements necessary or desirable with respect to the Shared Transmission Facilities.

3.8. **Surrender Upon Termination.** Upon termination of this Agreement, Sharee shall promptly, at its own expense and in no event more than (thirty) 30 days, vacate the facilities comprising the Shared Transmission Facilities, remove all of its assets and employees (if any) from such site, surrender the Shared Transmission Facilities in substantially the same condition existing as of the date hereof (reasonable wear and tear excepted) and return to Sharer all keys and other means of entry to the Transmitter Site and the Shared Transmission Facilities held by Sharee.

ARTICLE 4: REPRESENTATIONS AND WARRANTIES

4.1. **FCC Licenses.** Each party represents and warrants to the other that it has obtained (or will obtain prior to the Commencement Date) all FCC and any other governmental licenses, approvals and authorizations necessary for its operations on its respective station.

4.2. **Authority.** Each party represents and warrants to the other that (i) it has the power and authority to enter into this Agreement and to consummate the transactions contemplated hereby subject to the necessary FCC approvals; (ii) it is a corporation, limited liability company, or general partnership (as applicable), duly organized, validly existing under the laws of its place of organization, (iii) in good standing in the jurisdiction of its organization and, if necessary, is qualified to do business in the jurisdiction in which the Transmitter Site is located; (iv) it has duly authorized the execution, delivery and performance of this Agreement, and this Agreement is binding upon it; and (v) the execution, delivery, and performance by it of this Agreement does not conflict with, result in a breach of, or constitute a default or ground for termination under any agreement to which it is a party or by which it is bound.

ARTICLE 5: INDEMNIFICATION

5.1. **General Indemnification.** Subject to Section 5.3, each party shall indemnify, defend and hold the other harmless from and against any and all loss, liability, cost and expense (including reasonable attorneys' fees) arising from: (i) any breach of any representation or warranty made by it under this Agreement; (ii) failure to comply with the covenants and obligations to be performed by it under this Agreement; and (iii) its use of the Shared Transmission Facilities and the Shared Channel during the Shared Use Term. Neither party shall have any obligation or liability with respect to the other's station, except as may be otherwise expressly set forth in this Agreement.

5.2. **Programming Indemnification.** Without limiting the terms of Section 5.1, subject to Section 5.3, each party shall indemnify, defend and hold the other harmless from and against any and all loss, liability, cost and expense (including reasonable attorneys' fees) arising from the programming, advertising and operation of its television station using the Shared Channel, including without limitation for indecency, libel, slander, infringement of trademarks or trade names, infringement of copyrights and proprietary rights, violation of rights of privacy and other violations of rights or FCC rules or other applicable law.

5.3. **Liability.** In no event shall either party have any liability, whether based on contract, tort (including negligence or strict liability), warranty or any other legal or equitable grounds, for any punitive, consequential, indirect, exemplary, special or incidental loss or damage suffered by the other arising from or related to the performance or nonperformance of this Agreement, including loss of data, profits, interest or revenue or interruption of business, even if such party has been informed of or might otherwise have anticipated or foreseen the possibility of such losses or damages. Notwithstanding anything contained herein to the contrary, the limitations of liability contained in this Section 5.3 shall not apply to: (i) personal injury, including death, and damage to tangible property caused by the intentional wrongdoing or gross negligence of a party or its employees, agents, or subcontractors, or (ii) amounts paid or payable to third parties.

ARTICLE 6: TERMINATION AND REMEDIES

6.1. **Breach.** Upon the occurrence of an Event of Default (defined below), the non-defaulting party may (but is not obligated to) terminate this Agreement by written notice to the defaulting party. All rights and remedies provided in this Agreement and claims for damages shall be cumulative.

6.2. **Events of Default.** The occurrence of any of the following shall constitute an "Event of Default" by a party under this Agreement:

(a) a party fails to comply with or perform its obligations under this Agreement that (i) is material in the context of the transactions contemplated hereby or (ii), without limiting the generality of the preceding clause, constitutes a failure by a party to pay the other party any undisputed payment owed under this Agreement, which in either event is not cured within ten (10) business days after written notice thereof; or

(b) a party makes a misrepresentation under this Agreement and such misrepresentation is material in the context of the transactions contemplated hereby and is not cured within ten (10) business days after written notice thereof.

6.3. **Loss of License.**

(a) If Sharee's FCC license to use the Shared Channel is voluntarily or involuntarily revoked, rescinded, relinquished, canceled, withdrawn, surrendered, not renewed, or otherwise terminated for any reason, then simultaneously therewith all spectrum usage rights for the full amount of the spectrum of the Shared Channel shall revert to Sharer and this Agreement shall terminate.

(b) If Sharer's FCC license to use the Shared Channel is voluntarily or involuntarily revoked, rescinded, relinquished, canceled, withdrawn, surrendered, not renewed, or otherwise terminated for any reason, then simultaneously therewith all spectrum usage rights for the full amount of the spectrum of the Shared Channel shall revert to Sharee.

(c) The parties shall make and prosecute such FCC filings and take such further actions as applicable and as may be reasonably necessary for the remaining licensed parties to give effect to the terms and conditions of Section 6.3(a) and (b), above.

(d) Sharee shall have no liability to Sharer in the event there is a termination on account of the loss of Sharee's FCC license, other than reimbursement of any FCC filing fees paid for by Sharer which shall be refunded promptly (and in all events within ten (10) business days) in the event of termination pursuant to this Section 6.3 owing to loss of Sharee's FCC license.

6.4. **Insolvency.** Either party may terminate this Agreement by written notice to the other upon (i) the institution by or against the other party of insolvency, receivership or bankruptcy proceedings which is not dismissed within sixty (60) days of the date of filing, (ii) the other party making an assignment for the benefit of creditors or (iii) the other party's dissolution or ceasing to do business.

6.5. **Additional Termination Right for Sharee.** Sharee, in its sole discretion, may terminate this Agreement in the event that the FCC imposes any condition in the CP or in either Sharer's or Sharee's license for the Shared Channel that would require Sharee, or any of its affiliates to (i) agree to any conditions or limitations on any asset, business or property of Sharee, any of its affiliates, or (ii) take any action that may adversely affect Sharee or its affiliates or the Shared Channel.

6.6. **Survival.** No termination shall relieve a party of liability for failure to comply with this Agreement prior to termination. Notwithstanding anything herein to the contrary, the terms of Articles 5, 6 and 7 shall survive any termination of this Agreement.

6.7. **Specific Performance.** In the event of failure or threatened failure by either party to comply with the terms of this Agreement, the other party shall be entitled to an injunction restraining such failure or threatened failure and, subject to obtaining any necessary FCC consent, to enforcement of this Agreement by a decree of specific performance requiring

compliance with this Agreement. A party seeking such injunctive relief shall not be required to prove actual damages and shall not be required to post any bond as a condition for obtaining injunctive relief.

6.8. **Wind-Down Period.** In the event this Agreement is terminated, Sharee shall be permitted to continue to share spectrum on the Shared Channel on the terms provided in Sections 1.3, 1.4, Article 2, and Article 5 for a period sufficient for Sharee to find a new channel sharing host, such period not to exceed ninety (90) days following the termination of this Agreement.

ARTICLE 7: MISCELLANEOUS

7.1. **Confidentiality.** Subject to the requirements of applicable law, all non-public information regarding the parties and their respective businesses and properties that is disclosed by one party to the other in connection with the performance of this Agreement shall be confidential and shall not be disclosed to any other person or entity, except the parties' affiliates and their respective officers, employees, directors, attorney, accountants and other legal and financial advisors who need to know such information. This Section shall survive any termination or expiration of this Agreement.

7.2. **Assignment.** No party may assign, transfer or sublease this Agreement, except that (a) Sharer shall assign its rights under this Agreement to any FCC-approved assignee or transferee of Sharer's Station and such assignee or transferee shall assume this Agreement in a writing delivered to Sharee; (b) Sharee shall assign its rights under this Agreement to any FCC-approved assignee or transferee of Sharee's Station and such assignee or transferee shall assume this Agreement in a writing delivered to the other party to this Agreement; and (c) either party may assign all of its rights and obligations under this Agreement to any of its affiliates eligible to be the assignee of the FCC licenses of such party's station pursuant to an FCC "short-form" application without the consent of the other party. If rights and obligations under this Agreement are transferred or assigned, the assignee or transferee shall comply with the terms of this Agreement. If the transferee or assignee and the licensee of the remaining channel sharing station agrees to amend the terms of this Agreement, the Agreement may be amended, subject to FCC approval. The terms of this Agreement shall bind and inure to the benefit of the parties' respective successors and any permitted assigns. Nothing in this Agreement expressed or implied is intended or shall be construed to give any rights to any person or entity other than the parties hereto and their successors and permitted assigns.

7.3. **Severability.** The transactions contemplated by this Agreement are intended to comply with the Channel Sharing Rules and other Communications Laws. If any court or governmental authority holds any provision of this Agreement invalid, illegal, or unenforceable under any applicable law, then so long as no party is deprived of the benefits of this Agreement in any material respect, this Agreement shall be construed with the invalid, illegal or unenforceable provision deleted and the validity, legality and enforceability of the remaining provisions contained herein shall not be affected or impaired thereby.

7.4. **Notices.** All notices, requests or other communications required or which may be given hereunder shall be in writing and either delivered personally to the addressee, sent via email or facsimile transmission to the addressee, mailed to the addressee by certified or

7.6. **Relationship and Dealings with Third Parties.** Each of the parties hereto is an independent contractor, and no party is, nor shall be considered to be, the agent of another party for any purpose whatsoever. Neither party has any authorization to enter into any contracts nor assume any obligations for the other party nor make any warranties or representations on behalf of the other party, other than as expressly authorized herein. SCHEDULE 1.2

Shared Transmission Facilities Modification Costs

To facilitate the move of Sharee's Station to the Shared Transmission Facilities, Sharee intends to install a fiber circuit at the studio for Sharer's Station and deliver a switched feed to the Shared Transmission Facilities from a facility associated with WJAR, Providence, Rhode Island (Fac. ID No. 50780), which fiber feed will consist of an ASI transport stream containing one SD channel (~1.8 Mbps) including EAS & Legal IDs (collectively, the "***Sharee Signal Delivery Plan***").

The parties anticipate that no modifications to the Shared Transmission Facilities will be necessary to implement the Sharee Signal Delivery Plan. Notwithstanding the foregoing, in the event that Sharee delivers the signal of Sharee's Station to the Shared Transmission Facilities in a manner which materially differs from the Sharee Delivery Plan and requires modification of the Shared Transmission Facilities (an "***Alternative Delivery Plan***"), Sharee shall be solely responsible for any costs arising under such Alternative Delivery Plan.

SCHEDULE 2.1

Spectrum Allocation

Subject to Section 2.1, the allocated capacity on the Shared Channel is as follows:

- (i) nominal long-range average rate of two (2) Mb/s to Sharee's Station, as determined in a manner consistent with good engineering practices, and
- (ii) the remainder of the capacity of the Shared Channel to Sharer's Station.

Sharee has the option to add two (2) additional channels to be multicast on Sharee's Station. Each multicast channel will be allocated the following capacity on the Shared Channel: nominal long-range average rate of two (2) Mb/s to Sharee's Station, as determined in a manner consistent with good engineering practices.

Sharee may add an additional channel at any time during the Shared Use Term and may terminate either additional channel at any time during the Shared Use Term by providing written notice to Sharer. If Sharee has terminated a multicast channel, Sharee may add an additional multicast channel at any time during the Shared Use Term.
