

Section 307(B) Narrative:

Smile FM is hereby proposing a minor change Channel 250A at Englewood, TN to 250A at Delano, TN.

The proposal creates first service to the community of Delano, while Englewood already has a licensed radio service with WENR 1090 AM. This proposal results in a preferential arrangement.

No white or gray areas are created by this proposed change.

The proposed location is not in an urbanized area and no portion of the 70 dBu covers an urbanized area, nor would that be substantially possible in the future by the limitations imposed by WLND-FM on Channel 251.

The proposed, fully-spaced, transmitter site is line-of-site and just 5 miles from the Community of License and easily covers the community with 70 dBu signal, both on contour and a concentric-circle basis.

The proposal is mutually exclusive on channel 250A, as required, for a minor change.

Delano is on the Rand McNally Road Atlas, has a Post Office with its own zip code of 37325, has 26 business including a popular Mennonite market called Delano Community Farm Market, Delano Baptist Church, Mr Zip Foods, Dollar General, River Worship Center, Crossroads Baptist Church, Papa's Pizza To Go, Jessica's Place, East Tennessee Nursery as well as others where residents coalesce. There is 767 households with a population of 2025 persons.

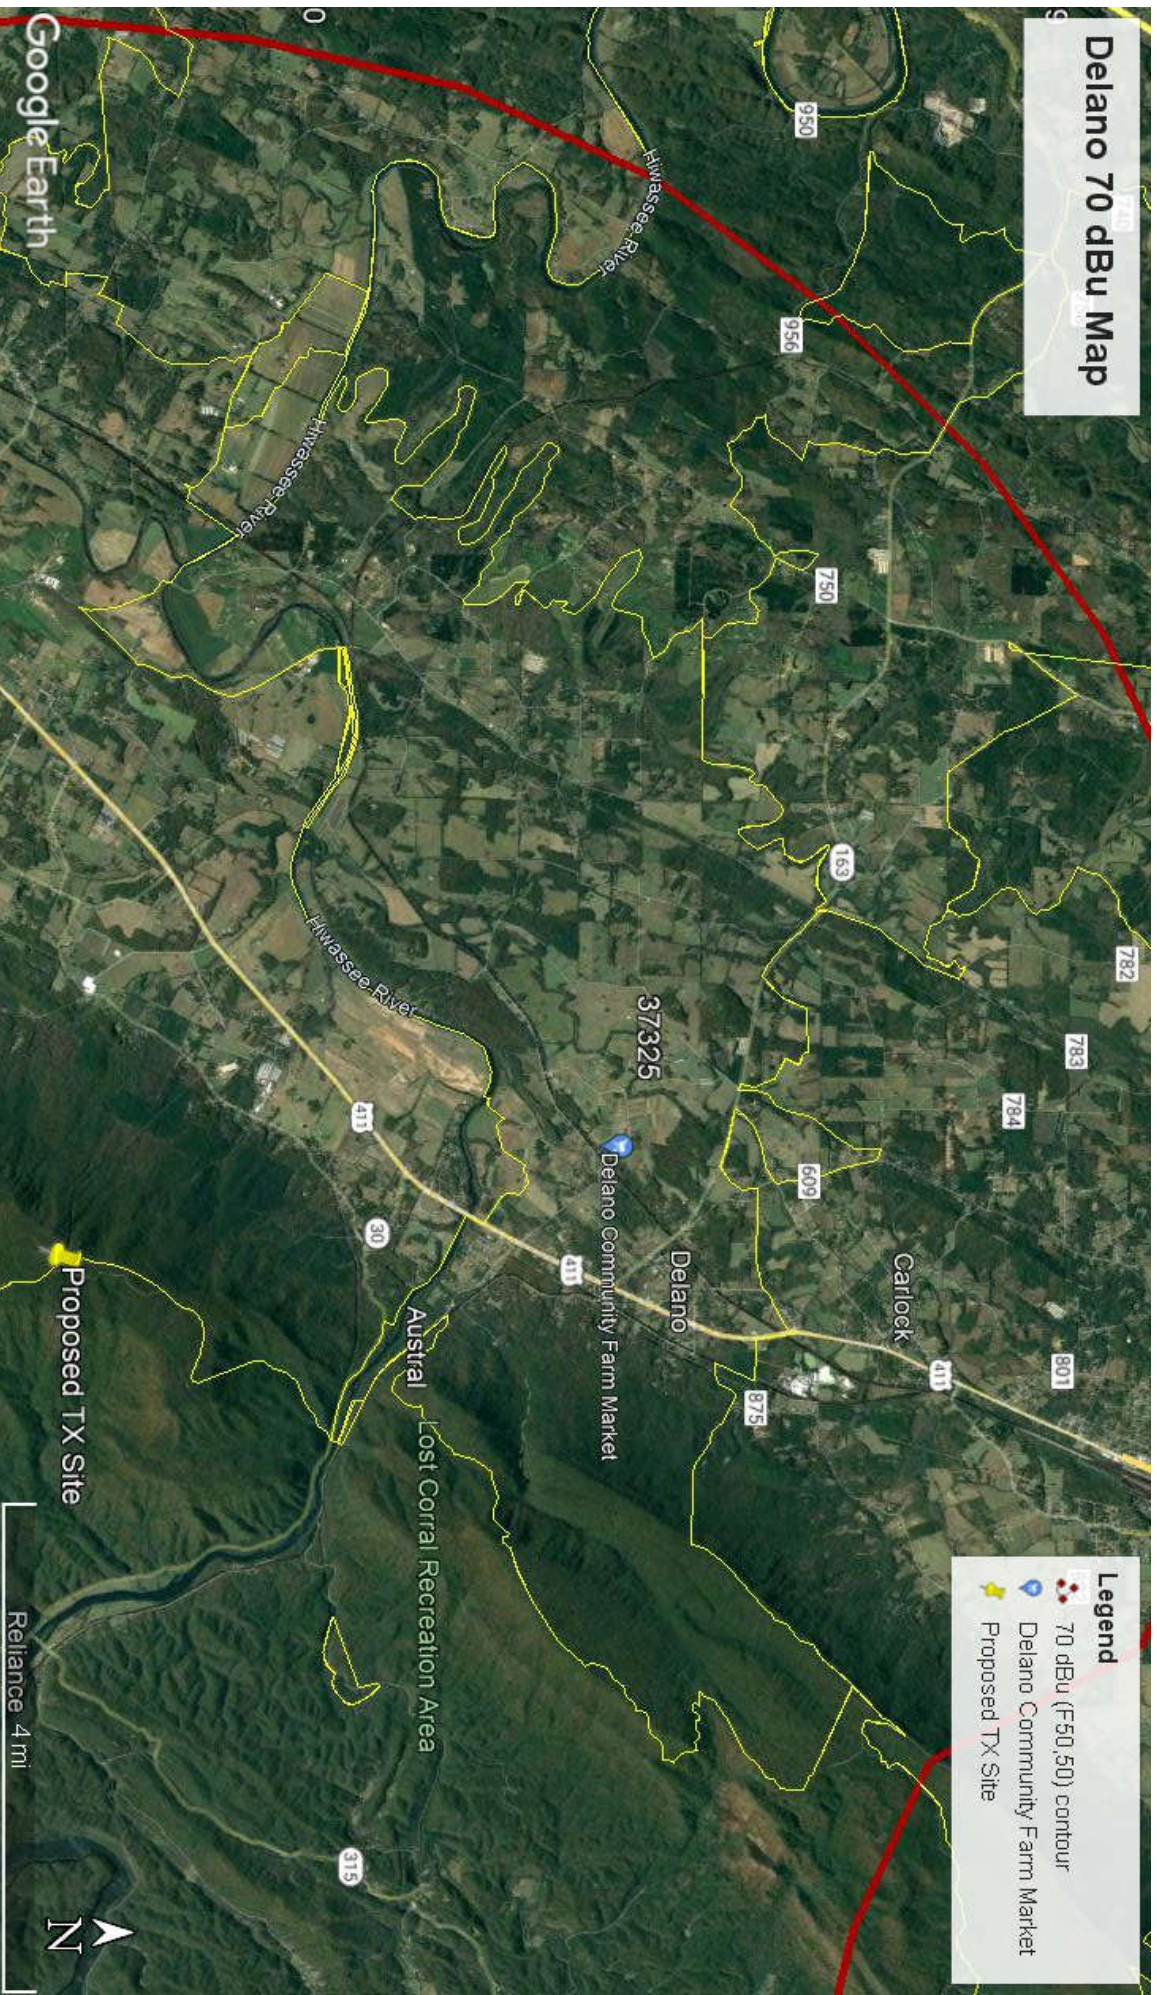

Other Factors:

Construction will occur on an existing tower structure, minimizing any environmental impacts.

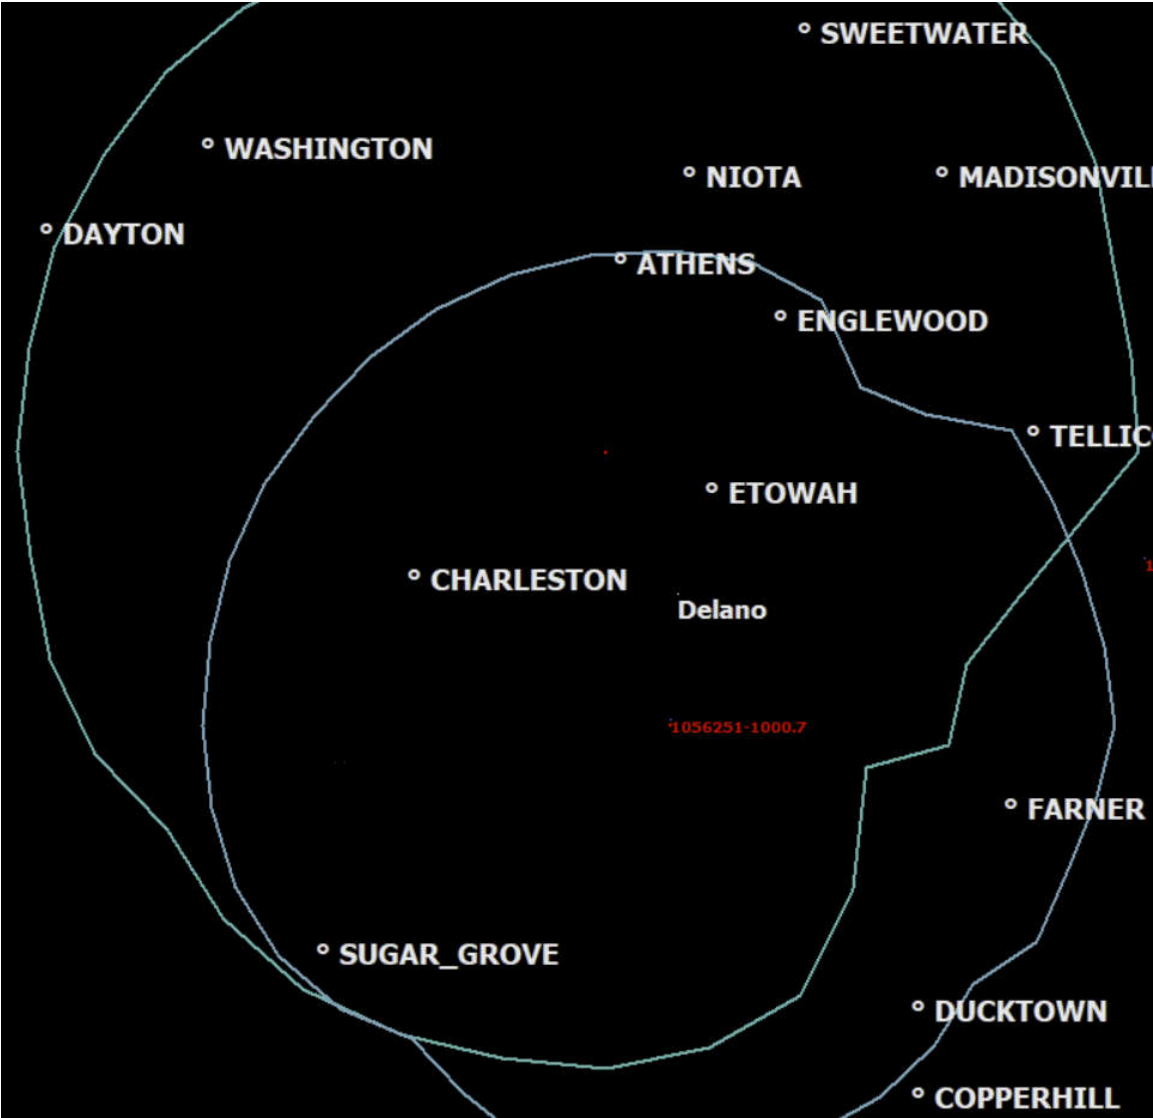

Summary:

We contend because of the above described reasons, that Delano results in a preferential arrangement.

Delano 70 dBu Map

Minor Change Contour Overlap Demonstration - Proposed VS Allocation (60 dBu)

Demonstration of 54 dBu (F50,10) of WLNDU on Channel 251 (prevents future move in)

Because the interfering contour of a first adjacent station, WLND, on Channel 251, covers well over 50% the urbanized area, any attempt to move the proposed facility closer would trip the 73.215 provision and prevent the 60 dBu or 70 dBu from covering a substantial portion of the urbanized area.
