

Online Public File Exhibit

As of this date, documents required to be uploaded to the station's public file have been posted on a timely basis with the exception of some Issues/Programs Lists, and political ads, which were uploaded late.

Although most of the station's public file documents were uploaded by their required deadlines, the failure to upload some on time was due to personnel changes and technical training issues. However, in an attempt to ensure no further late postings, the station's staff is working with counsel to monitor the timeliness of all future postings.
