

DTV Medical Facility Notifications

WJLP is an existing and operating digital television operating on Channel 3 (60-66 MHz), a low-vhf digital television channel; and is exempt from 47 CFR 15.242 requirements for notification to medical facilities within its service area.

The requirements for notification or spacing distances stated in 47 CFR 15.242 are only for those facilities operating on DTV channels 7 to 13 (174-216 MHz) and DTV UHF channels 14 to 36 (470-608 MHz), or on now out of core television channels 38 to 50 (614-668 MHz).

WJLP is in compliance with this special condition.
