Federal Communications Commission

Office of the Secretary

45 L Street NE

Washington, DC 20554

Attn: Barbara Kreisman

**Re: WCPX-LP, Columbus OH
Facility ID No. 53397**

Dear Ms. Kreisman:

Roseland Broadcasting of Columbus Ohio Licenses, LLC ("Roseland") submits its response to the September 15, 2021 Operational Status Inquiry sent by the Chief, Audio Division, Media Bureau (Attachment A). The Inquiry asks for the following regarding WCPX-LP, Columbus, OH (Facility ID No. 53397):

"Please provide the operational status of the station since April 13, 2017 – the conclusion of the Incentive Auction when the station was displaced. Has the station been operational during the entire period? If not, please provide the date(s) the station went silent and the date(s) it resumed operations."

At the outset, it should be noted that Roseland acquired the station pursuant to BALTTL-20171212ABB. *See* Attachment B. The assignment was consummated on May 22, 2018. *See*

Shainis & Peltzman, Chartered

Federal Communications Commission

Office of the Secretary

October 22, 2021

Page 2 of 3

Attachment C. Thus, Roseland shall provide the operational history of the station since the date of consummation.

On June 12, 2018, the licensee requested an STA because the station had gone silent, effective June 10, 2018. *See* Attachment D. The request was predicated on technical difficulties. The STA was granted on June 12, 2018. *See* Attachment E.

On April 14, 2019, Roseland filed a construction permit application to modify its license. *See* Attachment F. The modification was granted. *See* attached construction permit (Attachment G). *See also* FCC Form 346, BDISDTL-20080905AEC (Attachment F-1).

On May 24, 2019, Roseland requested an Engineering STA due to the necessity for ongoing structural analysis work to confirm that the elevation of the outstanding construction permit, pursuant to LMS File No. 0000071598, could be implemented. *See* Attachment H.

On June 10, 2019, Roseland notified the Commission that it had resumed broadcast operations on June 7, 2019. Resumption occurred pursuant to the Engineering STA (LMS File No. 0000073226). *See* Attachment I. It should be noted that it went back on the air implementing its digital construction permit but inadvertently did not file a license to cover.¹

On July 28, 2020, Roseland filed a Request for Silent STA. The request was predicated on the loss of site. *See* Attachment J. The STA was granted on July 28, 2020. *See* Attachment K.

On January 15, 2021, a Request to Extend the STA was filed. *See* Attachment L. In the exhibit titled “Circumstances of Request,” Roseland stated that it was in the process of locating a site.

¹ Roseland, with the cooperation of the Commission, staff, shall seek to correct that omission. It should be noted that, since June 7, 2019, WCPX has been operating digitally.

Shainis & Peltzman, Chartered

Federal Communications Commission

Office of the Secretary

October 22, 2021

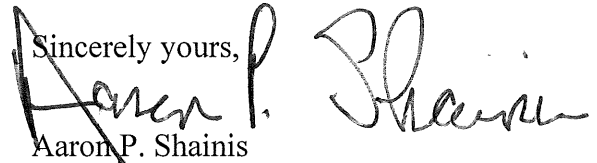

Page 3 of 3

On May 25, 2021, Roseland filed an Engineering STA Application to permit it to go back on the air at its former and original site. *See* Attachment M. It should also be noted that it returned to the air and filed a Resumption of Operations on June 4, 2021. *See* Attachment N.

Finally, on June 3, 2021, Roseland filed a Request for STA. The reason for the request was due to loss of site. *See* Attachment O.²

Further attached the instant submission is documentation concerning the expenses incurred by Roseland relative to various stages of operation. In this regard, see attached Attachment P, Attachment Q and Attachment R. Also, attached is a Declaration of Brian Short relative to operations (Attachment S).

If there are any further questions with respect to this matter, please communicate with the undersigned.

Sincerely yours,

Aaron P. Shainis

Enclosures

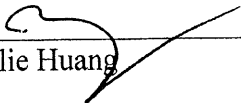

cc (w/ encl): Shaun Maher (*via e-mail*)

² Roseland has obtained a permanent site in Columbus. It intends to file a modification application shortly.

DECLARATION

Julie Huang, Managing Member of Roseland Broadcasting of Columbus Ohio Licenses, LLC, hereby states, under penalty of perjury, that she has reviewed the attached Response to the September 15, 2021 Operational Status Inquiry, and states that it is true and correct to the best of her knowledge and belief:

In re: WCPX-LP, Columbus, OH
Facility ID No. 53397

Operational Status Inquiry

Dear Licensee:

The Commission has received information that indicates that the station referenced above has been silent for more than one year. Pursuant to section 312(g) of the Communications Act of 1934, as amended (Act),¹ the license of any station that fails to transmit a broadcast signal for any 12-consecutive month period automatically expires by operation of law.²

This letter provides you 30 days to provide evidence³ that our information is incorrect and that, in fact, the station has either not been silent for more than one year or went silent but returned to the air with authorized facilities prior to its one-year silent anniversary. Please provide the operational status of the station since April 13, 2017 – the conclusion of the Incentive Auction when the station was displaced. Has the station been operational during the entire period? If not, please provide the date(s) the station went silent and the date(s) it resumed operations. The written response to this letter must be supported by a declaration by an individual with personal knowledge of the facts and signed under penalty of perjury that the facts and information provided in the response are both true and correct.⁴ As an

¹ See 47 U.S.C. §312(g); *Eagle Broad. Group, Ltd. v. FCC*, 563 F.3d 543 (D.C. Cir. 2009); *A-O Broad. Corp.*, Memorandum Opinion and Order, 23 FCC Rcd 603 (2008).

² Section 312(g) of the Act provides that if a broadcast station fails to transmit broadcast signals with its authorized facilities for any consecutive 12-month period, then the station license granted for the operation of that broadcast station expires at the end of that period, notwithstanding any provision, term, or condition of the license to the contrary, except that the Commission may extend or reinstate such station license to promote equity and fairness. 47 U.S.C. §312(g).

³ This evidence must indicate the location, effective radiated power and antenna height above ground level for **all periods of operation**. Also include copies of all leases, personnel records (including payroll records appropriately redacted to protect the privacy of individual employees), engineering records, and station records, including EAS logs, for all periods. In addition, you must provide copies of all invoices, bills, checks written or received, credit card charges, wire transfers or deposits of funds relating to the Station's operation. In addition, if the Station uses accounting software to maintain financial records, provide printouts of the data recorded for this period. You **must also include pictures** of the Station's studio facilities and transmission facilities during this timeframe and provide exact Station coordinates.

⁴ See 47 C.F.R. § 1.16.

alternative to a written response explaining the stations operational status, the Licensee may submit its license for cancellation.

Documents sent in response to this letter shall be addressed to FCC, Office of the Secretary, 45 L Street, NE, Washington, DC 20554, and emailed to Shaun Maher at the address below.

Please direct any questions concerning the content of this letter to Shaun Maher, Attorney, phone (202-418-2324), or e-mail (Shaun.Maher@fcc.gov).

Sincerely,

/s/

Barbara Kreisman

ALL CURRENTLY
AUTHORIZED
AUXILIARY
STATIONS

Under authority of the Communications Act of 1934, as amended, the consent of the Federal Communications Commission is hereby granted to the transaction indicated above.

The Commission's consent to the above is based on the representations made by the applicants that the statements contained in, or made in connection with, the application are true and that the undertakings of the parties upon which this transaction is authorized will be carried out in good faith.

The actual consummation of voluntary transactions shall be completed within 90 days from the date hereof, and notice in letter form thereof shall promptly be furnished to the Commission by the seller or buyer showing the date the acts necessary to effect the transaction were completed. Upon furnishing the Commission with such written notice, this transaction will be considered completed for all purposes related to the above described station(s).

ADDITIONAL REQUIREMENTS FOR ASSIGNMENTS ONLY:

Upon consummation the assignor must deliver the permit/license, including any modifications thereof to the assignee.

It is hereby directed that, upon consummation, a copy of this consent be posted with the station authorization(s) as required by the Commission's Rules and Regulations.

The assignee is not authorized to construct nor operate said station(s) unless and until notification of consummation in letter form has been forwarded to the Commission or has been filed electronically.

Post-Incentive Auction
Expedited Processing

Environmental Effect

Broadcast Facility

Question

It will operate on the DTV channel for this station as established in the post-incentive auction channel reassignment public notice.

It will operate post-incentive auction facilities that do not expand the noise-limited service contour in any direction beyond that established by the post-incentive auction channel reassignment public notice.

It will operate post-incentive auction facilities that match or reduce by no more than five percent with respect to predicted population from those defined in the post-incentive auction channel reassignment public notice.

The antenna structure to be used by this facility has been registered by the Commission and will not require re-registration to support the proposed antenna, OR the FAA has previously determined that the proposed structure will not adversely affect safety in air navigation and this structure qualifies for later registration under the Commission's phased registration plan, OR the proposed installation on this structure does not require notification to the FAA pursuant to 47 C.F.R. Section 17.7.

Would a Commission grant of Authorization for this location be an action which may have a significant environmental effect? (See 47 C.F.R. Section 1.1306)

The proposed facility complies with all of the following applicable rule sections. 47 C.F.R. Sections 74.709, 74.793(e), 74.793(f), 74.793(g), 74.793(h)

Character Issues

Question

Applicant certifies that neither applicant nor any party to the application has or had any interest in, or connection with:

(a) any broadcast application in any proceeding where character issues were left in unresolved or were resolved adversely against the applicant or party to the application; or

(b) any pending broadcast application in which character issues have been raised.

Response

Yes

Authorized Party to Sign

Question

Response

**FAILURE TO SIGN THIS APPLICATION MAY RESULT IN
DISMISSAL OF THE APPLICATION AND FORFEITURE OF
ANY FEES PAID**

Upon grant of this application, the Authorization Holder may be subject to certain construction or coverage requirements. Failure to meet the construction or coverage requirements will result in automatic cancellation of the Authorization. Consult appropriate FCC regulations to determine the construction or coverage requirements that apply to the type of Authorization requested in this application.

WILLFUL FALSE STATEMENTS MADE ON THIS FORM OR ANY ATTACHMENTS ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. Code, Title 18, §1001) AND/OR REVOCATION OF ANY STATION AUTHORIZATION (U.S. Code, Title 47, §312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, §503).

I certify that this application includes all required and relevant attachments.

I declare, under penalty of perjury, that I am an authorized representative of the above-named applicant for the Authorization(s) specified above.

Yes

**WCPX-LP MINOR MODIFICATION TO CONSTRUCTION PERMIT FOR CH 25 15 kW DIRECTIONAL
FACILITY ID 53397 BDISDTL-20080905AEC
COLUMBUS, OHIO
ENGINEERING NARRATIVE AND RF RADIATION ENVIRONMENTAL ANALYSIS
APRIL 2019**

WCPX-LP is licensed for operation on CH 48 and holds a CP for CH 25. This application proposes a minor change in the CP facilities, BDISDTL-20080905AEC. The proposed facility qualifies as a minor change as there is no change in channel of operation, there is significant overlap of the present and proposed LPTV service contours and the proposed site is 1.2 kilometers from the license/CP site in compliance with 74.787 (b) (iii). FCC TVStudy software was utilized to determine the interference levels associated with the proposed WCPX-LP facility and they are pasted in below.

The applicant proposes herein to move to FCC Tower registration ASR 1014195. The proposed antenna system consists of an ATC ATC-BCE58CRR-V2-25 antenna oriented at an azimuth bearing of 150.0 degrees True. The antenna is a UHF slot antenna, elliptically polarized, with 1.25 degree of beam tilt. The maximum relative field in the elevation pattern across the depression angle range of 30 to 90 degrees is less than 0.13 with a radiation center 146.3 meters above ground. Utilizing formula 10 OF OET Bulletin No. 65, Edition 97-01, a value F of 0.13 has been used to calculate the power density 2 meters above ground. The maximum power density is 6.1 uw/cm squared calculated for an ERP OF 15,000 watts H. polarization and 7,500 watts V. polarization. This value is 1.7% of the Public Exposure MPE per section 1.1310. Based on this analysis it is believed that the proposed facility follows OET-65 Guidelines.

The applicant will reduce power or cease transmission as required to meet FCC OET-65 Guidelines.

The proposed tower is existing along with the transmitter building, access road and power.

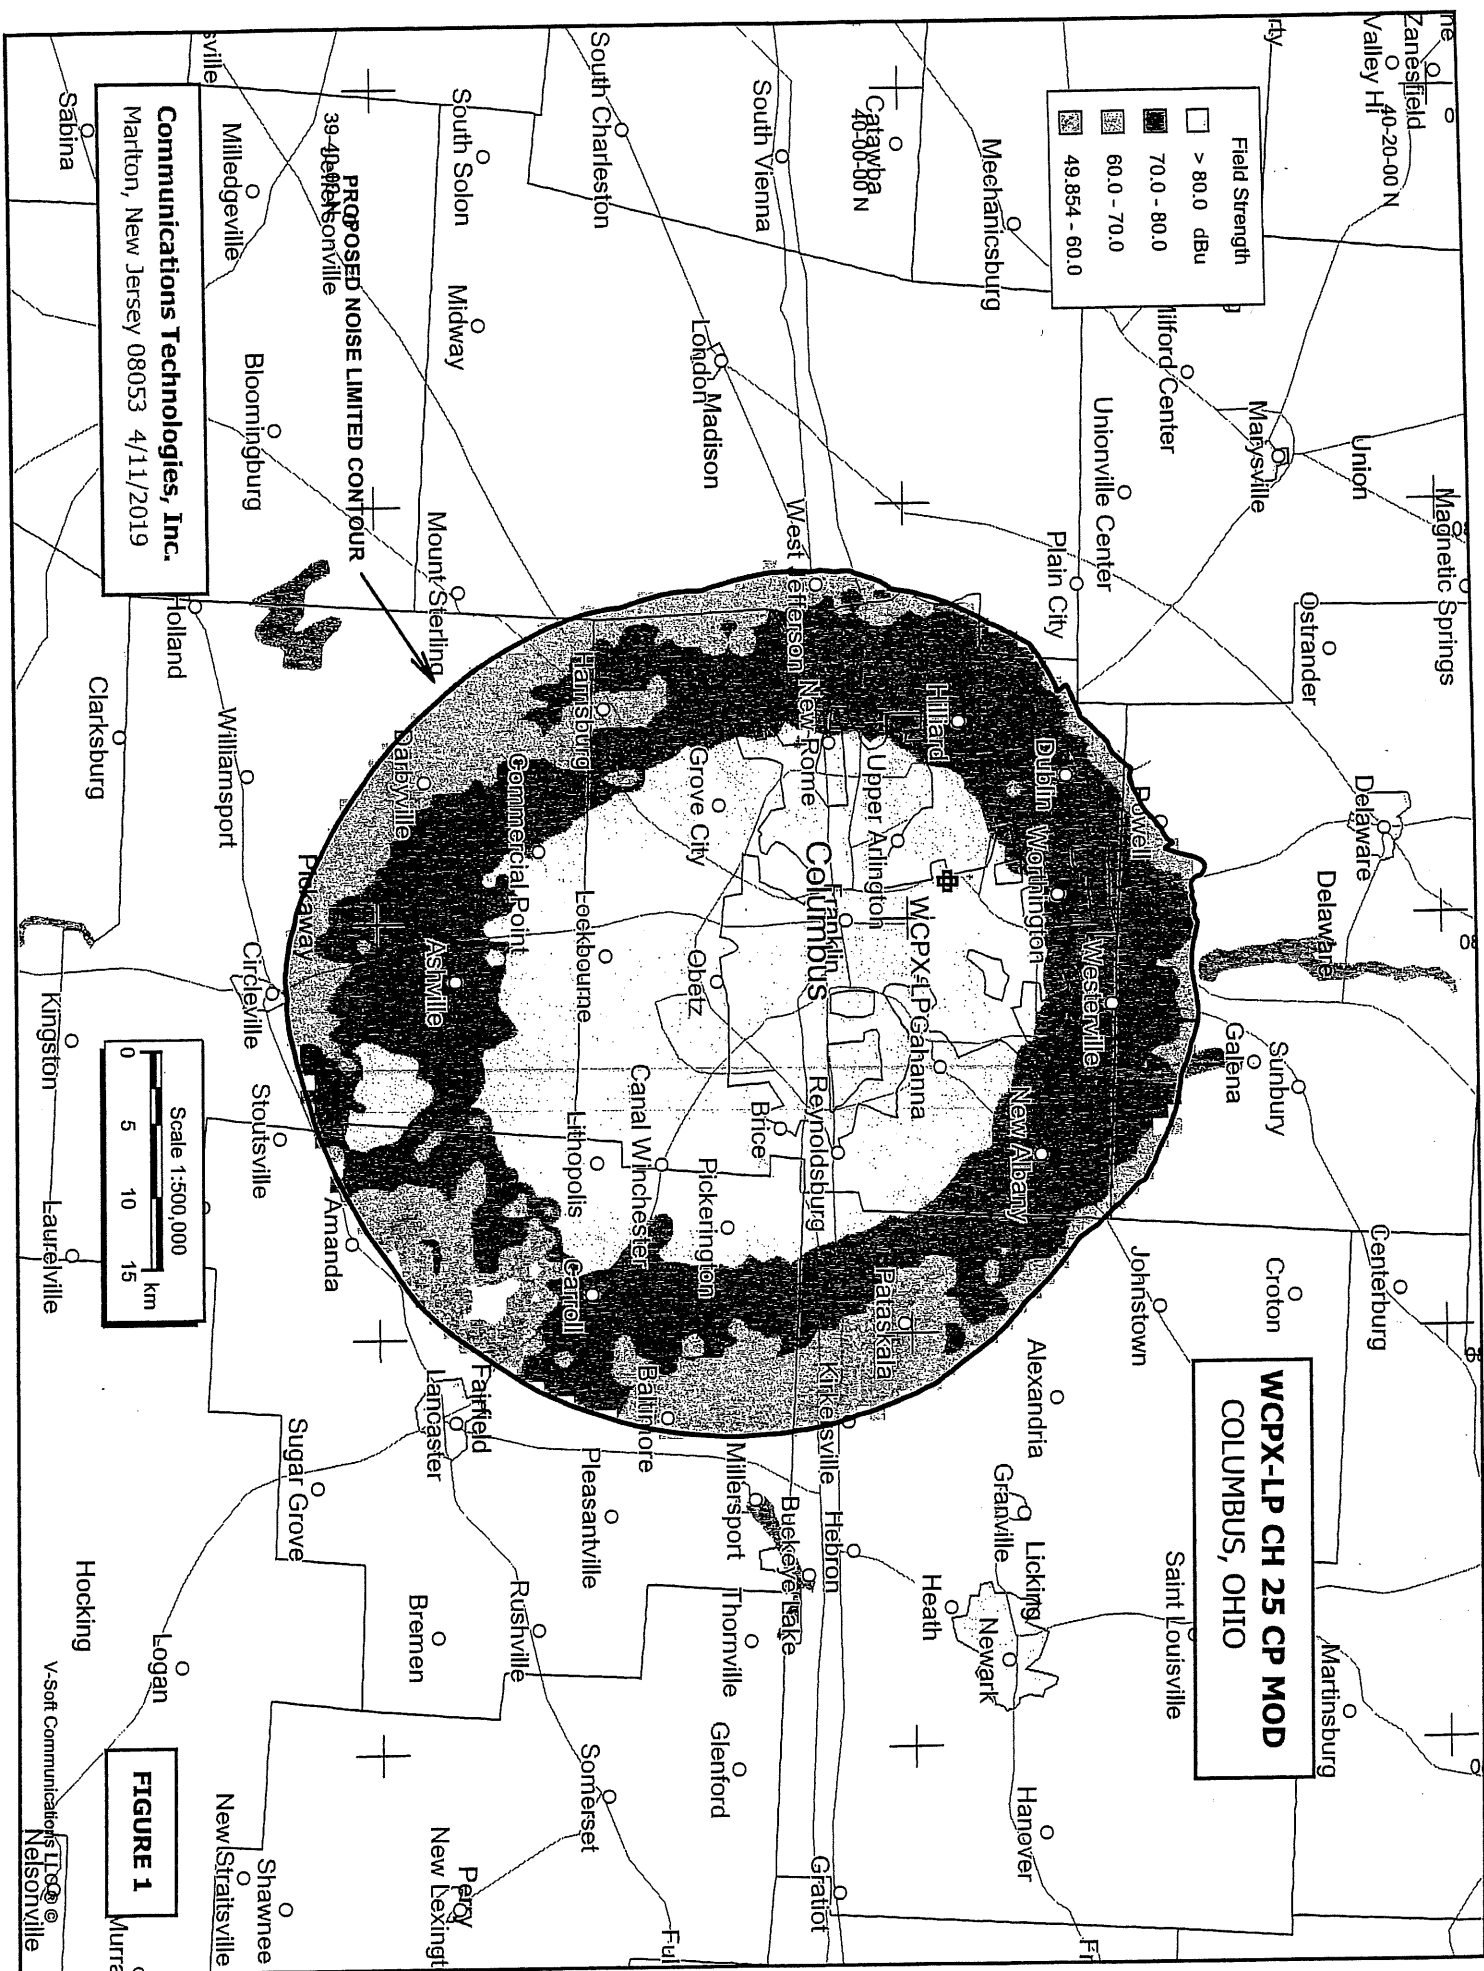

Below is a copy of the TVStudy interference analysis for CH 25 based on the facilities described above with the antenna orientation of 150 degrees true. As can be seen at the conclusion of the report there is no impermissible ISIX interference. It is believed that the proposed facility provides full protection to other television facilities.

TVStudy Report:

CATHLEEN HANCOCK, 3718 BOCA POINTE DRIVE, SARASOTA, FL	US	MANAGER	100	100								
3.	Character Issues. Applicant certifies that neither applicant nor any party to the application has or has had any interest in or connection with:	<input checked="" type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 2]										
a. any broadcast application in any proceeding where character issues were left unresolved or were resolved adversely against the applicant or party to the application; or b. any pending broadcast application in which character issues have been raised.												
4.	Adverse Findings. Applicant certifies that, with respect to the applicant and any party to the application, no adverse finding has been made, nor has an adverse final action been taken related to the following: any felony; mass media-related antitrust or unfair competition; fraudulent statements to another governmental unit; or discrimination.	<input checked="" type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 3]										

5. Alien Ownership and Control. Applicant certifies that it complies with the provisions of Section 310 of the Communications Act of 1934, as amended, relating to interests of aliens and foreign governments.	<input checked="" type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 4]
6. Program Service Certification. (For Low Power Television Applicants Only) Applicant certifies that this station will offer a broadcast program service.	<input checked="" type="radio"/> Yes <input type="radio"/> No
7. Local Public Notice. (For new station and major change Applicants Only) Applicant certifies that it has or will comply with the public notice requirements of 47 C.F.R. Section 73.3580.	<input checked="" type="radio"/> Yes <input type="radio"/> No
8. Rebroadcast Certification. (For Applicants proposing translator rebroadcasts that are not the licensee of the primary station) Applicant certifies that written authority has been obtained from the licensee of the station whose programs are to be retransmitted.	<input checked="" type="radio"/> Yes <input type="radio"/> No
9. Auction Authorization. If the application is being submitted to obtain a construction permit for which the applicant was the winning bidder in an auction, then the applicant certifies, pursuant to 47 C.F.R. Section 73.5005(a), that it has attached an exhibit containing the information required by 47 C.F.R. Sections 1.2107(d), 1.2110(i), 1.2112(a) and 1.2112(b), if applicable. An exhibit is required unless this question is inapplicable.	<input type="radio"/> Yes <input type="radio"/> No <input checked="" type="radio"/> N/A [Exhibit 5]
10. Anti-Drug Abuse Act Certification. Applicant certifies that neither applicant nor any party to the application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862.	<input checked="" type="radio"/> Yes <input type="radio"/> No

I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith. I acknowledge that all certifications and attached Exhibits are considered material representations. I hereby waive any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and request an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

NOTE: In addition to the information called for in this section, an explanatory exhibit providing full particulars must be submitted for each question for which a "No" response is provided.	
12.	Out-of-channel Emission Mask: <input type="radio"/> Simple <input checked="" type="radio"/> Stringent <input type="radio"/> Full Service
CERTIFICATION	
13.	Interference : The proposed facility complies with all of the following applicable rule sections. 47.C.F.R Sections 74.709, 74.793(e), 74.793(f), 74.793(g), 74.793(h), 74.794(b) and 73.1030. <div style="text-align: right;"> <input checked="" type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 12] </div>
14.	Environmental Protection Act. The proposed facility is excluded from environmental processing under 47. C.F.R. Section 1.1306 (i.e., The facility will not have a significant environmental impact and complies with the maximum permissible radiofrequency electromagnetic exposure limits for controlled and uncontrolled environments). Unless the applicant can determine RF compliance, an Exhibit is required. <div style="text-align: right;"> <input checked="" type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 13] </div> <p>By checking "Yes" above, the applicant also certifies that it, in coordination with other users of the site, will reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic exposure in excess of FCC guidelines.</p>
15.	Channels 52-59. If the proposed channel is within channels 52-59, the applicant certifies compliance with the following requirements, as applicable: <div style="margin-top: 10px;"> <input type="checkbox"/> The applicant is applying for a digital companion channel for which no suitable channel from channel 2-51 is available. </div>

- ☐ Pursuant to Section 74.786(d), the applicant has notified, within 30 days of filing this application, all commercial wireless licenses of the spectrum comprising the proposed TV channel and the first adjacent channels thereto, for which the proposed digital LPTV or TV translator antenna site lies inside the licensed geographic boundaries of the wireless licensees or within 75 miles and 50 miles, respectively, of the geographic boundaries of co-channel and adjacent-channel wireless licensees.
16. **Channels 60-69.** If the proposed channel is within channels 60-69, the applicant certifies compliance with the following requirements, as applicable:
- ☐ Pursuant to Section 74.786(e), the applicant has notified, within 30 days of filing this application, all commercial wireless licenses of the spectrum comprising the proposed TV channel and the first adjacent channels thereto, for which the proposed digital LPTV or TV translator antenna site lies inside the licensed geographic boundaries of the wireless licensees or within 75 miles and 50 miles, respectively, of the geographic boundaries of co-channel and adjacent-channel wireless licensees.
- ☐ Pursuant to Section 74.786(e), the applicant proposing operation on channel 63, 64, 68 and 69 ("public safety channels") has secured a coordinated spectrum use agreements(s) with 700 MHz public safety regional planning committee(s) and state administrator(s) of the region(s) and state(s) within which the antenna site of the digital LPTV or TV translator station is proposed to locate, and those adjoining regions and states with boundaries within 75 miles of the proposed station location.
- ☐ Pursuant to Section 74.786(e), the applicant for a channel adjacent to channel 63, 64, 68 or 69 has notified, within 30 days of filing this application, the 700 MHz public safety regional planning committee(s) and state administrator(s) of the region and state containing the proposed digital LPTV or TV translator antenna site and regions and states whose geographic boundaries lie within 50 miles of the proposed LPTV or TV translator antenna site.

PREPARERS CERTIFICATION ON PAGE 3 MUST BE COMPLETED AND SIGNED.

SECTION III PREPARER'S CERTIFICATION

I certify that I have prepared Section III (Engineering Data) on behalf of the applicant, and that after such preparation, I have examined and found it to be accurate and true to the best of my knowledge and belief.

Description
COMPREHENSIVE TECHNICAL EXHIBIT

TECHNICAL EXHIBIT
DIGITAL DISPLACEMENT RELIEF APPLICATION FOR
LOW POWER TV STATION WCPX-LP
FACILITY ID 53397
COLUMBUS, OHIO
CH 25 9.5 KW (MAX-DA)

Technical Narrative

The technical exhibit of which this narrative is part was prepared in support of a digital displacement relief application for Low Power TV (LPTV) station WCPX-LP at Columbus, Ohio (Facility ID: 53397). Specifically, this application proposes to modify the WCPX-LP licensed operation by specifying digital operation on UHF channel 25 and operating with a different directional antenna.

Displacement Relief Eligibility

Station WCPX-LP is currently licensed to operate on NTSC channel 48 (674-680 MHz) with a directional antenna maximum ERP of 150 kW and an antenna RCMSL of 379 meters. However, co-channel DTV station WPXI on channel 48 at Pittsburgh, Pennsylvania is located 261.3 kilometers from the WCPX-LP transmitter site, therefore WCPX-LP qualifies for displacement.

It is proposed to operate WCPX-LP on digital channel 25 from its licensed analog transmitter site and employ an ERI ALP8L2-HSPR-25 peanut type directional antenna. There is no proposed change in transmitter site, therefore there will be overlap of the current 74 dBu and proposed 51 dBu contours as detailed below. Based on current FCC policy, a displacement relief application specifying a site change of less than 48 kilometers (30 miles) and also involving protected contour overlap is considered permissible.

This application is considered a "minor change" in facilities pursuant to Section 73.3572, as it is a displacement relief application and the proposed 51 dBu contour will overlap a portion of the licensed 74 dBu contour (see Figure 1).

Proposed Operation

Station WCPX-LP proposes to operate on digital channel 25 (536-542 MHz) with an ERI model ALP8L2-HSPR-25 directional antenna, and a maximum directional ERP of 9.5 kW and an RCMSL of 379 meters. The ERI directional antenna will be mounted at the 157 meter level on an existing 204.8 meter tower. The FCC Tower Registration Number for the existing structure is 1029036.

Response to Paragraph 13

A study has been conducted using the OET Bulletin 69 interference model.¹ The results indicate that the proposed operation will not create prohibited interference to stations in the Land Mobile Radio Service (LMRS) or other existing, authorized or proposed NTSC or DTV full-power, LPTV, TV translator or Class A stations.

Canadian Protection

The proposed channel 25 operation will be located 187 kilometers from the closest point of the US-Canadian common border. Since, there are no specific rules regarding digital low power stations along the common border, the rules regarding full power DTV stations were employed. Specifically, consideration was given to the existing US-Canadian TV Agreement (1994) and Letter of Understanding (LOU) between the FCC and Industry Canada related to DTV service along the common border (September 12, 2000). Pursuant to the existing Agreement and LOU, DTV stations will be referred if the pertinent interfering contour would fall within the territory of the other country. The pertinent interfering contour applicable towards co-channel NTSC stations is the 30.2 dBu, F(50,10) contour. The pertinent interfering contour applicable towards co-channel DTV operations is the 19.5 dBu, F(50,10) contour. Figure 2 depicts the locations of both the 19.5 dBu, F(50,10) and 30.2 dBu, F(50,10) interfering contours based on the proposed DTV channel 25 facilities. As indicated on Figure 2, neither the 19.5 dBu, F(50,10) nor the 30.2 dBu, F(50,10) contour overlaps Canadian land.

¹The du Treil, Lundin & Rackley, Inc. DTV interference analysis program is based on the program and procedures outlined by the FCC in the Sixth Report and Order; subsequent Memorandum Opinion and Order; and FCC OET Bulletin No. 69. A nominal grid size resolution of 1 km was employed. An Alpha based processor computer system was employed. The results have been found to be in very close agreement with the results of the FCC implementation of OET Bulletin No. 69.

area. Therefore, it is not believed necessary to refer the proposal to Canada.

Response to Paragraph 14 - Environmental Protection Act

The proposed WCPX-LP facilities were evaluated in terms of potential radiofrequency radiation exposure at ground level in accordance with OET Bulletin No. 65, "Evaluating Compliance With FCC-Specified Guidelines for Human Exposure to Radiofrequency Radiation." The calculated power density at 2 meters above ground level at the base of the tower was calculated using the appropriate equation of the Bulletin. Figure 3 depicts the vertical pattern data for the proposed directional antenna. Using a conservative vertical relative field value of 0.3 at depression angles towards the tower base (-60° to -90° elevation), a maximum ERP of 9.5 kilowatts, the calculated power density at 2 meters above ground level at the base of the tower is 0.0012 milliwatts per square centimeter (mW/cm^2), or 0.33% percent of the Commission's recommended limit of $0.36 \text{ mW}/\text{cm}^2$ for TV channel 25 applicable to general population/uncontrolled exposure areas. Therefore, based on the responsibility threshold of 5%, the proposal will comply with the new RF emission rules.

Access to the transmitting site will be restricted and appropriately marked with warning signs. Furthermore, as this is a multi-user site, an agreement will be in place to ensure that appropriate measures will be taken to assure worker safety with respect to radio frequency radiation exposure. Such measures include reducing the average exposure by spreading out the work over a longer period of time, wearing "accepted" RFR protective clothing and/or RFR exposure monitors or scheduling work when the stations are at reduced power or shut down.

Finally, it is noted that this technical exhibit only addresses the potential for radiofrequency electromagnetic field exposure. All other aspects of the environmental

processing analysis will be or already has been provided to the
FCC by the tower owner as part of the tower registration process.

Waivers/Special Conditions

- This authorization is subject to the condition that low power television is a secondary service, and that low power television and television translator stations must not cause interference to the reception of existing or future full service television stations on either allotted NTSC or DTV channels, and must accept interference from such stations.

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.

EXTRAORDINARY CIRCUMSTANCES

WCPX-LD, Facility ID 53397, went silent on June 10, 2018. On April 29, 2019 the station was granted a modification to its Digital Displacement CP for CH 25 under file number 0000071598. The STA facility proposed herein specifies the site, channel of operation, antenna system and ERP authorized in the CP but at a reduced antenna elevation AGL of 33.5 meters. This STA is necessitated by ongoing structural analysis work required to confirm that the CP elevation of 146.3 meters can be implemented.

WCPX-LD plans to commence operation as soon as possible but in any event prior to June 10, 2019.

Application sections are listed in the order they appear in the application. The order of sections may vary depending on the type of application.

Reason for Request

The station went silent due to the loss of its site. It has been searching for a new site. Its former landlord has consented to allow the station to return to the air so as to enable it to resume broadcast operations and continue to look for a new site without the pressure of facing cancellation of its license.

DECLARATION

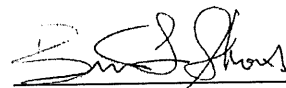

Brian Short hereby states, under penalty of perjury, the following:

Since January 2019, I have been consulting part time as Chief Engineer to Roseland Broadcasting, Inc. ("Roseland"). In June 2019, I oversaw a construction project for Roseland – to return WCPX to broadcast operations. The station was licensed to Nexstar's WCMH tower (ASR 1014195), located at 3165 Olentangy River Road, Columbus, Ohio 43202.

Roseland had already purchased an Anywave transmitter Granite Series 3 kW, an Alive antenna ATC-BCE58 CRR V2-25 and used Commscope 1 5/8 heliax cable for the install. I hired Integrated Tower Services to rig the antenna on the tower. The station was constructed and went on the air on June 7, 2019. It broadcast Shop LC network on that day.

In 2020, Roseland became aware that the station tower had failed a secondary structural survey and, on behalf of Roseland, on July 29, 2020, I arranged for the station to be moved off the tower. The antenna and the transmitter were put in storage while Roseland sought to locate a new tower in Columbus.

On June 3, 2021, WCPX resumed operations of the tower with ASR 1014195 with the same antenna that had been re-rigged. Integrated Tower Services of Cincinnati Ohio was used for the rigging. I was present when broadcasting began. Unfortunately, the tower structural issues had not been resolved and the station ceased broadcasting on June 15, 2021.
