Jerry Olson  
Spokane Public Radio  
1229 N Monroe Street  
Spokane, WA 99201

Dear Mr. Olson:

It is my understanding that Spokane Public Radio intends to apply for a license for a noncommercial educational FM radio station to serve the Colville area. I further understand that Spokane Public Radio would like to install an antenna for this purpose on a communications tower owned by the Washington State Department of Natural Resources (DNR), located at Monumental Mountain.

I understand that this is a competitive process and that it is not certain that Spokane Public Radio will prevail. Should Spokane Public Radio succeed in obtaining permission from the FCC to construct this station, DNR will enter into discussions with an eye towards negotiating a lease for the Spokane Public Radio facilities that is technically and economically agreeable to both parties.

Please understand that DNR cannot guarantee that this property will be available in the future and that this letter of reasonable assurance is in no way binding upon either party.

Sincerely,

A handwritten signature in blue ink that reads "Timothy A. Gallagher" with a stylized "ST" monogram at the end.

Timothy A. Gallagher  
Program Specialist  
Washington State Department of Natural Resources
