

AREA AND POPULATION CALCULATION STATEMENT

The new area served (967.03 Square Kilometers) and the population served (33,465 persons) listed in the Technical Statement (see the attached Technical Statement under the Technical Certifications attachments) were calculated using FM Commander version 7.1.44 © 2021, V-Soft Communications, LLC with U.S. Census 2010 Block population data. The parameters of the study are listed in the Technical Statement attached in Figure 1. The area served and the population served within the 60 dB μ F(50,50) contour were calculated in accordance with 47 CFR §73.313(c) with the results listed in Figure 2 of the Technical Statement with the Area and Population Calculations within the 60 dB μ F(50,50) contour.
