

**Exhibit Regarding  
Fair Distribution of Service**

As provided in the NCE Aural Service Study attached to this Exhibit as Attachment 1, the proposed station will provide 60 dBu service to a total population of 104,436. The proposed station will not provide first overall aural service. However, it will provide first NCE aural service to a population of 37,299—35.7% of the total service population. The proposed station will also provide combined first and second NCE aural service to a population of 85,645—82% of the total service population.

Accordingly, the proposed station will provide first (and combined first and second) noncommercial educational aural service to (1) at least 10% of the people residing within the station's 60 dBu service contour and (b) a minimum of 2,000 people.
