#### Reguest for Extension of Reduced Power STA

William J. Jaeger ("Jaeger"), the licensee of low power television station KOTR-LD, Monterey, California (Facility ID No. 187515), respectfully requests an extension of its special temporary authority to operate the station at reduced power with the facilities specified in FCC File No. 0000144094. On May 3, 2021, the FCC granted special temporary authority for KOTR-LD to operate at reduced power from the site specified in KOTR-LD's outstanding construction permit ("CP") (File No. 0000122307), with such authority expiring on November 2, 2021. Due to an inadvertent oversight, Jaeger did not timely request an extension, but respectfully requests that the Commission grant the extension requested herein, *nunc pro tunc*.

The extension is necessary because, despite Jaeger's efforts to complete construction of the facilities specified in the CP, delivery of the equipment necessary to complete construction has been delayed due to COVID-related issues. Accordingly, Jaeger requests an additional six months within which to operate KOTR-LD at reduced power while he awaits delivery of the required equipment. A copy of Jaeger's original reduced power STA request and the FCC's grant letter are attached.
