

## **Transfer of Control Application Exhibit – Amendment Waiver**

Community Broadcasters, LLC, licensee of the stations at issue in this application (“Licensee”) includes with the instant amendment this exhibit because LMS requires an exhibit when an application requests a waiver. License does not, by this amendment, request a waiver in addition to the one it requested in its initial application (*see* FCC File No. 0000147906), but simply notes that it continues to request grant of the waiver it requested in that application.
