

Competitive Bidding Procedures Exhibit

The original construction permits for two of the 24 full-power radio stations that are the subject of this transfer of control application were obtained through the FCC's competitive bidding procedures.

The original construction permit for WOTT(FM), Calicum, NY (Fac. ID No. 166014) was awarded to Liveair Communications, Inc., in Auction 62 (MM-FM433A). At the time Auction 62 was held, Liveair Communications qualified for and received a 25% bidding credit. Subsequently the permit was assigned to Community Broadcasters LLC in 2009, and an unjust enrichment payment was made to the FCC at the time that assignment was consummated.

The original construction permit for WFRK(FM), Quinby, SC (Fac. ID No. 183329) was awarded to Miller Communications, Inc., in Auction 79 (MM-FM699). Miller Communications did not qualify for and did not receive any bidding credits in Auction 79.
