

Public File Exhibit

WNBH(AM), New Bedford, Massachusetts, FCC License Renewal Application

As of this date, all documents required to be in the station's online public inspection file have been uploaded. Most were posted on a timely basis, with the exception of some 2016 Quarterly Issues/Programs Lists, one 2020 Quarterly Issues/Programs List and one political advertising posting, which were uploaded late.

In the few instances during the eight-year period under review, the failure to upload on time was due to internet outages, misunderstanding of Commission requirements during staff changes and FCC upload problems - all of which were corrected as soon as physically possible. However, in an attempt to ensure no further late uploads, the station's staff is working with the assistance of counsel to monitor the timeliness of all future postings.
