

THE PRAISE NETWORK INC
New NCE Application
FACID #767452
Smith Center KS

This application for new noncommercial facility is currently listed in mutually exclusive group #101 with 6 other applications across a wide geographic area. This application proposes a minor change to eliminate all conflicts with the other applications, making it single.

This is not a settlement agreement between parties; this applicant can make this curative amendment and remove itself from the mutually exclusive group without any harm to any other applicant or creating any new conflicts with other applications.

Contour Protection

As noted on the attached map of contours, the minor change proposed herein meets all co-channel, first, second and third adjacent protection in the current allocation landscape and with all other pending NCE applications.

The applicant proposed to move from Channel 209 to Channel 207 with the same Class parameters originally proposed at the same tower site. This is a minor change, in-class modification and thus, this application meets the objectives of the Commission in the advancement of non-commercial educational stations and maximizes the efficient utilization of reserved band spectrum.

Map of Interfering Contours

- Proposed Facility:**
 Blue - 100dBu(50,10)
 Green - 60dBu(50,50)
 Orange - 54dBu(50,10)
 Red - 40dBu (50,10)
- Other Facilities**
Co-Channel
 Red - 60dBu (50,50) Green - 40dBu (50,10)
First Adjacent
 Orange - 60dBu (50,50) Green - 54dBu (50,10)
Second/Third Adjacent
 Blue - 60dBu (50,50) Green - 100dBu (50,10)
