**FCC Form 303-S
Online Public Inspection File**

Station timely uploaded the Issues and Programs Lists for the first quarter of 2019 on April 5, 2019, five days before the deadline for that period. Station discovered on October 28, 2019, that, while the file did appear to upload, the link on its online public inspection file was not functional likely due to a conversion error. Station promptly uploaded the same version of the timely-filed Issues and Programs Lists that day as a corrective measure (without removing the existing upload). Station has implemented new protocol to review such uploads within 24 hours to confirm the conversion does not result in any errors. Although the Station timely uploaded the Issues and Programs Lists for the first quarter of 2019, Station is including this disclosure to explain the date of the upload that currently appears in the online public inspection file.
