Twin Cities Public Television Annual EEO Public File Report
Stations KTCA-TV & KTCI-TV
Reporting Period November 22, 2020-November 21, 2021

5. **A list and brief description of initiatives undertaken to satisfy the requirements to complete four "menu options" within a two-year period.**

   i. **Participation in at least four job fairs by station personnel who have substantial responsibility in making of hiring decisions.**

   Description: Due to the COVID-19 pandemic, many job fairs have been cancelled in 2021. We utilized Handshake, an online college resource for students to find career opportunities.

   In August 2021, team members from TPT participated in engagement of the public at the Minnesota State Fair.

   In technology, we continue to partner with PRIME Digital Academy to build connections and offer career counseling for students of varying technical levels on how their experiences should align with future media positions.

   All Career Events had hiring managers and/or human resources staff in attendance with job related information.

   iv. **Participation in at least four events sponsored by organizations representing groups present in the community interested in broadcast employment issues, including conventions, career days, workshops and similar activities**.

   Description:

   In November 2020, TPT hired a consultant with SoulTouch to collaborate with us to launch a new youth media initiative that introduces students to media production.

   Through-out 2020 & 2021, TPT NOW, the nation's first 24/7 television broadcast channel airing real-time health and safety emergency alerts in English, Spanish, Hmong, and Somali, partnered with the MN Department of Health and New Publica to launch a social media campaign to bring awareness of COVID-19 safety to our youth—by our youth.

   Throughout 2020, TPT collaborated with Team Dynamics, an organization committed to meaningful change. With their background in adult education and strategic community organizing, a TPT cohort of 25 staff members met with a panel of community leaders to better understand how to reach, partner and elevate stories with our diverse community audiences.

   In 2020 & 2021, members of our staff spoke at various colleges and technical colleges about careers in

broadcasting. In November 2021, a member of our legal department spoke with law students about careers in public media and entertainment law.

v. Establishment of internship program designed to assist members of the community to acquire skills needed for broadcast employment.

Description: During the preceding year, TPT offered a standard internship program, which includes real-work experience, shadowing experienced employees, coaching/mentoring, and formalized feedback. TPT trained managers on process and procedures of hiring interns for this program through one-on-one instruction based on the TPT Internship Guide. Even working remotely, TPT offered 5 students paid internship programs. These opportunities were advertised at ta variety of colleges, including non-technical and technical positions that prepare students for the media workforce.

vii. Participation in scholarship programs designed to assist students interested in pursuing a career in broadcasting.

Description: TPT Continue to collaborate with Mellon/ACLS Fellowship. We were awarded a Mellon /ACLS Fellow to work with our Audience Development Project Team. This ACLS fellowship will run through August 2022. Our graduate student is learning our public broadcasting business and will be assisting us in better meeting the needs of the community and deepening our audience engagement. In partnership with Report for America, a national service program that places emerging journalist into local newsrooms to report on undercover issues, TPT was awarded a Data Reporting fellowship to address racial disparities in our region.

viii. Establishment of training programs designed to enable station personnel to acquire skills that could qualify them for higher level positions.

Description: Fall of 2020 through Spring 2021 the Senior Management Team participated in a training program focused on Inter-cultural diversity.

Through the year technology was upgraded due to pandemic and all employees had access to additional training for use of this technology.

xii. Listing of each upper-level category opening in a job bank or newsletter of media trade groups whose membership includes substantial participation of women and minorities

Description: Listing of each upper-level category opening in a job bank or newsletter of media trade groups whose membership includes substantial participation of women and minorities.

Postings for VP of HR and CTO were published in the Current, the premier publication for public media sector.

xiv. Provision of training to management level personnel as to methods of ensuring equal employment opportunity and preventing discrimination

Description: Training for EEO with supervisors and managers making employment decisions in Spring of 2021.
